Pennisetum villosum	207
Stipa tenuissima	208

## SUCCULENTEN

Sempervivum sp.	208
-----------------	-----

## We at Beekenkamp are pleased to introduce you to our 2022/2023 offerings.

There have been many unforeseen obstacles that we had never anticipated, but you and your customers have found new ways to meet consumer's needs. Their new buying habits create a broad playing field for our industry. Beekenkamp aims to connect and align all the values of the supply chain with you and your customers.

In our breeding activities, we are on a continuous journey to find the crops that have added value to all links in the business chain. This is, for example, how we have created the cost-effective LaBella® Dahlia range for you, which offers a perfect Dahlia for every pot size - from big to small. Or take a look at our day-neutral Kelos® Celosia: a great crop for production in pots, in addition to also being an ideal complement to the start of the garden mum season. Our latest introduction is the Begonia Spacestar, which can be grown under cooler conditions and is also great as outdoor summer plant.

Beekenkamp Verpakkingen's BKX tray is another product with added value. It's not only cost effective in logistics, but also a great sustainable and environmentally friendly tray solution. The BKX tray is available for a whole range of seed and cutting raised starting material. We at Beekenkamp are committed to the choices we have made in our breeding efforts and partnerships, but it is the trust you have in us, that will truly strengthen those choices.

Our Beekenkamp Team is dedicated and committed to our customers and partners. We only want to grow for the future, together.

## Wir bei Beekenkamp freuen uns, Ihnen unser Angebot 2022/2023 vorstellen zu können.

Es gab in den vergangenen Jahren für uns alle eine Reihe unvorhergesehene Hindernisse, aber Sie und Ihre Kunden haben neue Wege gefunden, um die Bedürfnisse der Verbraucher zu erfüllen. Neue Konsumgewohnheiten haben unserer Branche ein breites Spielfeld eröffnet. Beekenkamp richtet seine Angebote für Sie und Ihre Kunden so aus, dass Sie alle Werte in der Absatzkette aufgreifen können.

In unserer Züchtungsarbeit sind wir ständig auf der Suche nach Pflanzen, die allen Beteiligten in der Produktions- und Absatzkette einen Mehrwert bieten. Auf diesem Hintergrund haben wir beispielsweise das kosteneffiziente Dahliensortiment LaBella® für Sie entwickelt, das für jede Topfgröße – von groß bis klein – eine perfekte Dahliensorte zu bieten hat. Oder werfen Sie einen Blick auf unsere tagneutrale Celosia Kelos®: eine großartige Pflanze für die Topfkultur, aber auch eine ideale Ergänzung zum Start der Gartenchrysanthen-Saison. Unsere jüngste Neuheit ist Begonia Spacestar, die unter kühleren Bedingungen kultiviert werden kann und sich auch auszeichnet als Sommerpflanze für den Außenbereich eignet.

Ein weiteres Produkt mit Mehrwert ist das BKX-Tray von Beekenkamp Verpakkingen. Es ist nicht nur kostengünstig in der Logistik, sondern auch eine hervorragende nachhaltige und umweltfreundliche Tray-Lösung. Das BKX-Tray eignet sich für ein ganzes Spektrum von Ausgangsmaterial aus Sämlings- oder Stecklingskultur. Wir bei Beekenkamp stehen im Hinblick auf unseren Einsatz für die Züchtung und in Bezug auf unsere Partnerschaften zu unseren Entscheidungen, aber es ist Ihr Vertrauen in uns, das diese Entscheidungen wirklich stärkt und trägt.

Unser Beekenkamp-Team widmet sich voller Engagement und Tatkraft unseren Kunden und Partnern. Wir wollen ausschließlich zukunftsgerichtet wachsen, gemeinsam.

## Beekenkamp a le plaisir de vous proposer ses offres pour 2022/2023.

De nombreux obstacles se sont présentés, que nous n'avions jamais anticipés, mais vous avez trouvé, ainsi que vos clients, de nouvelles façons de répondre aux besoins des consommateurs. Leurs nouvelles habitudes d'achat créent un vaste terrain de jeu pour notre secteur. Beekenkamp a pour objectif de connecter et d'harmoniser toutes les valeurs de la chaîne logistique avec les vôtres et celles de vos clients.

Dans le cadre de notre hybridation, nous recherchons en permanence des cultures qui apportent une valeur ajoutée à tous les maillons de la chaîne commerciale. Ainsi, nous avons notamment créé la gamme rentable de dahlias LaBella®, qui offre un dahlia optimal pour chaque taille de pot - du plus grand au plus petit. Jetez aussi un coup d'œil à notre célosie Kelos® à jour neutre : une fantastique culture pour la production en pots, mais également un complément idéal pour le début de la saison des chrysanthèmes de jardin. Notre dernière nouveauté est le bégonia Spacestar, qui peut être cultivé dans des conditions plus fraîches et convient aussi parfaitement comme plante estivale d'extérieur.

Le plateau BKX de Beekenkamp Verpakkingen (Conditionnements) est un autre produit à valeur ajoutée. Non seulement rentable au niveau logistique, cet article représente également une excellente solution durable et écologique. Le plateau BKX est disponible pour toute une gamme de matériel de base issu de semences et de boutures. Chez Beekenkamp, nous nous attachons à respecter les choix que nous avons effectués dans notre recherche génétique et nos partenariats, mais c'est la confiance que vous nous accordez qui consolidera absolument ces choix.

Notre équipe Beekenkamp dévouée est engagée auprès de nos clients et partenaires. Nous voulons seulement nous développer pour l'avenir, ensemble.

## Wij van Beekenkamp laten u graag kennismaken met ons aanbod voor 2022/2023.

Er zijn veel onvoorziene obstakels geweest die we nooit hadden verwacht, maar u en uw klanten hebben nieuwe manieren gevonden om aan de behoeften van de consument te voldoen. Hun nieuwe koopgedrag creëert een breed speelveld voor onze branche. Beekenkamp streeft ernaar om alle waarden van de supply chain te verbinden en op één lijn te brengen met u en uw klanten.

In onze veredelingsactiviteiten zijn we continu op zoek naar de gewassen die een toegevoegde waarde hebben voor alle schakels in de keten. Zo hebben we bijvoorbeeld het LaBella® Dahlia assortiment voor u samengesteld. Met Dahlia soorten voor iedere potmaat, van groot tot klein. Of kijk eens naar onze daglengte-neutrale Kelos® Celosia: een gewas voor teelt in potten, en een ideale aanvulling op de start van het gardenmum seizoen. Onze nieuwste introductie zijn de Spacestars Begonias, die onder koelere omstandigheden gekweekt kunnen worden en ook prima geschikt is als zomerplant voor buiten.

De BKX tray van Beekenkamp Verpakkingen is een ander product met toegevoegde waarde. Het is niet alleen kostenbesparend in de logistiek, maar ook een geweldige duurzame en milieuvriendelijke tray-oplossing. De BKX-tray is leverbaar voor een heel assortiment uitgangsmateriaal uit zaad en stek. Wij van Beekenkamp zijn toegewijd aan de keuzes die we hebben gemaakt in onze veredeling en partners, maar het is het vertrouwen dat u in ons hebt, dat die keuzes echt zal versterken.

Ons Beekenkamp Team is gedreven en toegewijd aan onze klanten en partners. Alleen samen groeien we voor de toekomst.

Marja Vonk Noordegraaf

Sirekit Mol

The Beekenkamp Group. An established presence in the world of horticulture. A family business since 1951, we now have over 2,900 employees worldwide and produce over 2 billion young plants every year, with a total greenhouse area of 90 hectares. The Beekenkamp Group combines the forces of our three businesses.

### We work together for the best result.

De Beekenkamp Group. Een begrip in de tuinbouw. Een familiebedrijf pur sang, met sinds 1951 ruim 2.900 medewerkers wereldwijd, een productie van meer dan 2 miljard jonge planten per jaar en een totaal areaal aan kassen van 90 hectare. Beekenkamp Group bundelt haar krachten in drie bedrijven.

### Samen gaan we voor het beste resultaat.

Peter Persoon & An Beekenkamp

Marc Driessen  
CEO Plants Ornamentals

### Corporate Social Responsibility

We see social responsibility as a crucial element in running our business. In addition to our care for all of our employees who work for us worldwide, as well as their families, we also ensure that the environmental impact of our activities is minimal. Beekenkamp also sets high standards for hygiene. We implement very strict hygiene measurements to prevent diseases and discourage pests. All of these efforts have resulted in gaining various certificates. Our provisions regarding working conditions, the environment and hygiene are subject to external monitoring.

### Maatschappelijk Verantwoord Ondernemen

We zien sociale verantwoordelijkheid als een cruciaal element bij het runnen van ons bedrijf. Naast onze zorg voor al onze medewerkers die wereldwijd voor ons werken, en hun gezinnen, zorgen we er ook voor dat de milieupact van onze activiteiten minimaal is. Beekenkamp stelt ook hoge eisen aan hygiëne. We voeren zeer strenge hygiënemaatregelen uit om ziekten en ongedierte te voorkomen. Al deze inspanningen hebben geresulteerd in het behalen van verschillende certificaten. Onze bepalingen inzake arbeidsomstandigheden, milieu en hygiëne worden extern gecontroleerd.

### Certifications and guarantees

Our Product Management team is testing our own genetics and breeding from partners to extend their technical knowledge for you. Improved product quality from unrooted to finished product, tolerances to pests and diseases, reducing the usage of PGR's and extending the shelf and garden life are the four main research targets. The application of modern breeding techniques is the key to success at Beekenkamp Plants today. Investments are based on a clear vision of the future needs of all the links within both contemporary ornamental horticulture production as well as in the supply chain.

Test locations in different parts of the world are very important to us, as it is Beekenkamp's goal to provide the consumer with the best product available in their climate zone. It also allows us to monitor the effects of our genetics in different growing circumstances. Beekenkamp Plants' comprehensive cultivationdatabase contains extensive information from all over the world, taking each and every growing situation into account. All this, in order to provide you with the latest advice and information. The Marketing team is lucky enough to draw inspiration from the whole chain including the consumer. If you would like any visuals or designs please contact our office. Our experience in working in partnership is what makes it successful, but it takes time to develop. It is evident that the most successful partnerships have built upon a long history of collaboration. The Marketing department, where Sales, Product Management and Breeding, come together in order to see how we can assist you in the best way.

Know that you are invited at any time to our premises in the Netherlands where you can feel free to take a look at our shelf-life testing room or trial garden. Or visit the new Beekenkamp Inspiration Center, make an appointment all year round both online and offline.

Ons Product Management team test onze eigen genetica en teelt van partners om hun technische kennis voor u uit te breiden. Verbeterde productkwaliteit van onbeworteld tot afgewerkt product, tolerantie voor plagen en ziekten, vermindering van het gebruik van PGR's en verlenging van de houdbaarheid en de levensduur in de tuin zijn de vier belangrijkste onderzoeksdoelstellingen. De toepassing van moderne veredelings technieken is vandaag de dag de sleutel tot succes bij Beekenkamp Plants. Investerings zijn gebaseerd op een duidelijke visie op de toekomstige behoeften van alle schakels binnen zowel de hedendaagse sierteeltproductie als in de toeleveringsketen.

Testlocaties in verschillende delen van de wereld zijn erg belangrijk voor ons, want het is Beekenkamp's doel om de consument het beste product te bieden dat verkrijgbaar is in hun klimaatzone. Het stelt ons ook in staat om de effecten van onze genetica in verschillende groeiomstandigheden te volgen. De uitgebreide teeltdatabase van Beekenkamp Plants bevat uitgebreide informatie van over de hele wereld, waarbij rekening wordt gehouden met elke teeltsituatie. Dit alles om u van het laatste advies en informatie te voorzien. Het marketingteam heeft het geluk zich te laten inspireren door de hele keten, inclusief de consument. Neem voor afbeeldingen of ontwerpen contact op met onze marketing afdeling. Onze ervaring met het werken in partnerschap is wat het succesvol maakt, maar het kost tijd om te ontwikkelen. Het is duidelijk dat de meest succesvolle partnerschappen zijn gebaseerd op een lange geschiedenis van samenwerking. De afdeling Marketing; waar de afdelingen Verkoop, Productontwikkeling en Veredeling samenkomen om te kijken hoe we u het beste kunnen helpen.

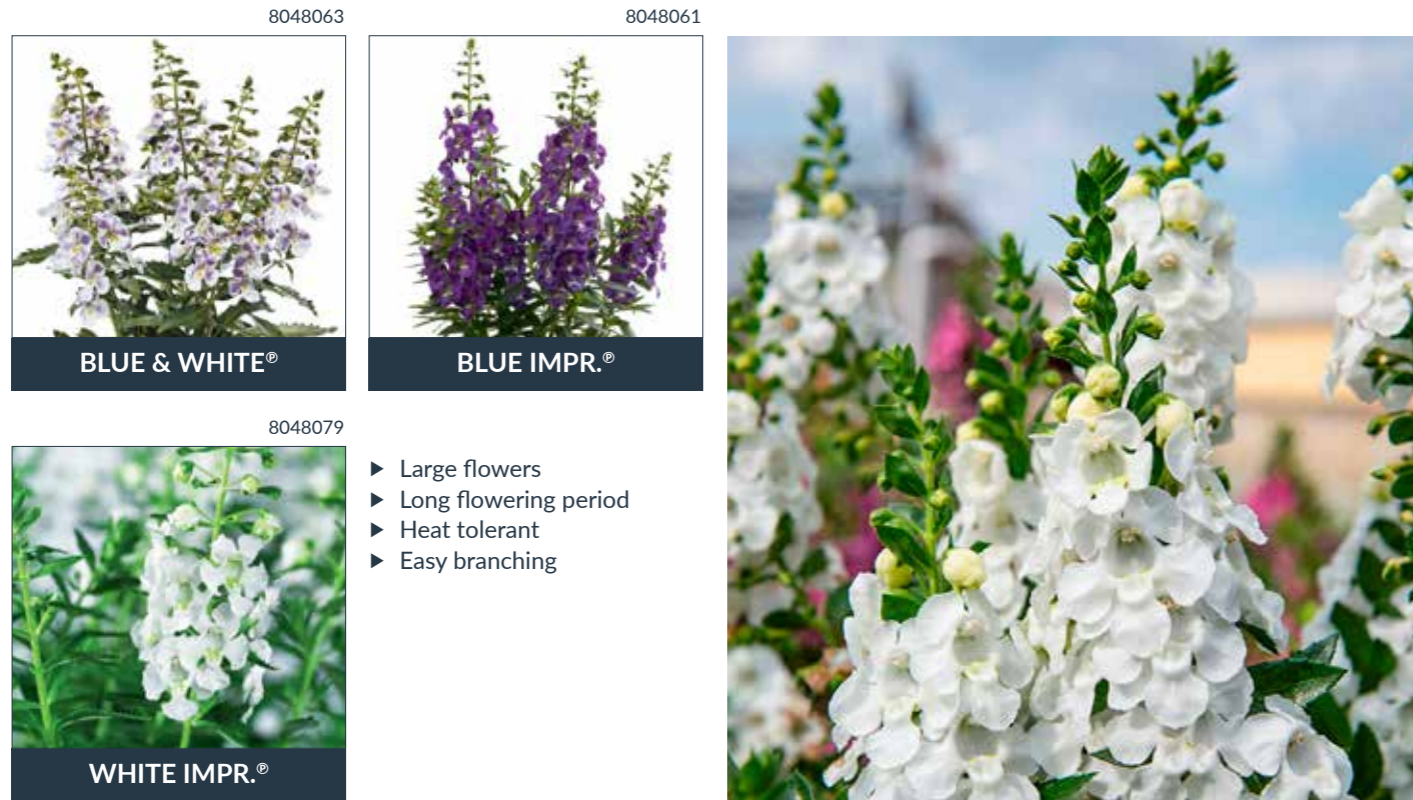

Weet dat u ten alle tijden welkom bent in ons pand in Nederland waar u gerust een kijkje kunt nemen in onze houdbaarheidstestruimte of showtuin. Of bezoek het nieuwe Beekenkamp Inspiration Center, maak het hele jaar door zowel online als offline een afspraak.

### THE PLANT

Campala is the brand name for a range of different Campanula varieties. The Campala fits into any living room, patio or garden, is easy to combine with other plants, shows excellent results in the shelf life tests and is perfect for the gift market.

*The Campala is available in different pot sizes and is very suitable for running large retail promotions.*

### FLOWERING TIME

The Campala can be offered as a houseplant early in the season. With its white and deep blue colours is a prelude to the coming spring.

The Campala is very suitable as an outdoor plant from May to September. Due to its vibrant colour this strong plant attracts the end consumer and bees love the Campala too!

### GOOD RESULTS IN THE SHELF LIFE TESTS

### FITS IN EVERY LIVING ROOM, PATIO OR GARDEN

### BKX-Tray 264

- Sown directly into the tray
- Sorted tray
- Multi-use tray
- Perfect retrieval
- Reducing environmental impact
- Extremely suitable for automatic potting
- Proven advantage X-tray
- Efficient in transport
- Direct op de tray gezaaid
- Gesorteerde tray
- Meermalige tray
- Perfect uithaalbaar
- Verminderd milieu-impact
- Uitermate geschikt voor automatisch oppotten
- Bewezen voordeel X-tray
- Efficient in transport
- Direktsaat in das Tray
- Sortiertes Tray
- Mehrzwecktray
- Perfekte zum Wiederverwenden
- Reduzierung der Umweltbelastung
- Sehr gut geeignet für das automatische Topfen
- Bewährter Vorteil X-Tray
- Effizient im Transport

### BKX-Tray 480

- Sown directly on the tray
- Sorted tray
- Perfect retrieval
- Efficient in transport
- Extremely suitable for automatic potting
- Suitable for packs and small pots
- Direct op de tray gezaaid
- Gesorteerde tray
- Perfect uit te halen
- Efficient in transport
- Uitermate geschikt voor automatisch oppotten
- Geschikt voor packs en kleine potten
- Direktsaat in das Tray
- Sortiertes Tray
- Mehrzwecktray
- Effizient im Transport
- Sehr gut geeignet für das automatische Topfen
- Geeignet für Packungen und kleine Töpfe

### BKX-Tray 128

- More cultivation buffer to start
- Slightly larger plug than old product
- Shorter cultivation time grower
- Meer teeltbuffer voor start
- Iets grotere plug dan oude product
- Kortere teeltduur kweker
- Mehr Kultivierungspuffer zum Starten
- Etwas größerer Plug als das alte Produkt
- Kürzere Kulturdauer

Ageratum houstonianum | Aloha
