KEY TO SYMBOLS

-  TRAY SIZE
-  DELIVERY WEEKS
-  PRODUCTION TIME
-  POT SIZE
-  PLANT HEIGHT

For varieties, traysizes or deliveries not mentioned in this catalogue we maintain the following minimum quantities per delivery :

TRAY SIZE	MIN
Varieties in BKX 84 hole trays:	8 trays
Varieties in BKX 128 hole trays:	8 trays
Varieties in BKX 264 hole trays:	8 trays

TRAY 84

- For large-flowered cyclamen
- Transplanted plant
- Plant is 13 weeks old
- Suitable for 12 cm pot and larger
- More mature plant
- Voor grootbloemige cyclamen
- Verspeende plant
- Plant is 13 weken oud
- Geschikt voor 12 cm pot en groter
- Volwassenere plant

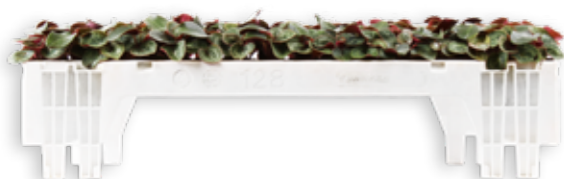

TRAY 128 LOW

- Transplanted plant
- Plant is 11-12 weeks old
- Small-flowered cyclamen
- More mature plant
- Verspeende plant
- Plant is 11-12 weken oud
- Kleinbloemige cyclamen
- Volwassenere plant

TRAY 128 HIGH

- Glue plug: optimal rooting
- For a very uniform startup
- Sown directly into the tray
- Sorted tray
- Young plants 11-12 weeks old
- For large flowered cyclamen
- Lijmplug
- Optimale beworteling
- Direct op de tray gezaaid
- Gesorteerde tray
- Plant is 11-12 weken oud
- Voor groot bloemige cyclamen

TRAY 264

- Glue plug
- Sown directly on the tray
- Sorted tray
- Plant is 10 weeks old
- Perfect retrieval
- For small flowered cyclamen
- Lijmplug
- Direct op de tray gezaaid
- Gesorteerde tray
- Plant is 10 weken oud
- Perfect uit te halen
- Voor klein bloemige cyclamen

Beekenkamp Cyclamen – The best starting material for the best Cyclamen!

Beekenkamp Plants Ornamentals is an experienced producer of Cyclamen young plants for several decades. Known for our strong young plants of excellent quality. We highly value the close partnerships we have built with the various Cyclamen breeders and are happy that due to these collaborations, Beekenkamp Plants is able to offer you the right genetics for your growing conditions. Our committed colleagues in the various departments ensure a fluent process in which cooperation and quality are key. The broad assortment we produce has over the years proved to be the right start for excellent flowering Cyclamen.

NEW: cyclamen in 128 BKX-tray high and low

By offering different genetics in suitable trays with fitting delivery weeks, we make sure that the grower can rely on a good start of the crop. This year we have listed the 128 BKX-tray high without gapping for the small flowering varieties, which makes the perfect start to a perfect plant. The 128 BKX-tray low is offered for big flowering Cyclamen and is filled with a transplanted plug. Both the 128 BKX-trays are reusable, therefore it is ideal for growers who want to pot automatically. BKX-tray is being used multiple times, which contributes to sustainability of the environment.

With the **NEW Crispino** Mini series we offer a uniform Cyclamen series suitable for 9 to 12 cm pots. This is a beautiful new fringed series. In addition, there is now also the Latinia Crispino which is suitable for the 12-15 cm pot.

Looking for something for the smaller pots? The Melange Micro series offers the perfect solution for production in small pots. The uniformity within the different colours makes packaging of the flowering plants easier.

We also offer the Super Series Leopardo for large pots and as a large-flowered series. This series is suitable for 12-15 cm pots and very heat tolerant.

Growing Cyclamen in hot conditions is not easy. The Super Series Leopardo performs excellent in hot conditions and produces beautiful large sized flowers. When you are looking for Cyclamen which can be grown during the dark and colder period of the year, the Super Series Vintro are the perfect solution. The Super Series Vintro are less sensitive to Botrytis and very suitable for flowering in winter due to its sturdy plant habit.

Big fan of scented Cyclamen? The Super Series Odora is a collection of perfumed Cyclamen. Apart from a lovely scent these plants are also very floriferous. All-in all enough to look forward to!

When you like more information, our team of professionals is always at your service!

Beekenkamp Cyclamen – het beste uitgangsmateriaal voor de beste Cyclamen!

Beekenkamp Plants Ornamentals is al tientallen jaren een ervaren producent van Cyclamen jonge planten. Bekend om onze sterke jonge planten van uitstekende kwaliteit. We hechten veel waarde aan de samenwerkingen die we hebben opgebouwd met de verschillende Cyclamen-veredelaars. Wij zijn blij dat Beekenkamp Plants door deze samenwerkingen de juiste genetica kan bieden voor uw groeiomstandigheden. Onze betrokken collega's op de verschillende afdelingen zorgen voor een vloeiend proces waarin samenwerking en kwaliteit centraal staan. Het brede assortiment dat wij produceren is door de jaren heen de juiste start gebleken voor uitstekend bloeiende Cyclamen.

NIEUW: Cyclam in hoge en lage 128 BKX-tray

Door verschillende genetica aan te bieden in passende trays met passende leverweken, zorgen we ervoor dat de teler kan vertrouwen op een goede start van de teelt. Dit jaar bieden we voor de kleinbloemige Cyclamen de 128 BKX-tray hoog zonder tussenruimte aan. Dit geeft de plant een perfecte start. De 128 BKX-tray laag wordt aangeboden voor grootbloemige Cyclamen en is gevuld met een verspeende plug. Beide 128 BKX-trays zijn herbruikbaar en daarom ideaal voor kwekers die automatisch willen oppotten. BKX-trays worden meerdere keren gebruikt, wat bijdraagt aan de verduurzaming van het milieu.

Met de **NIEUWE Crispino** mini serie bieden wij een uniforme Cyclamen serie geschikt voor 9 t/m 12 cm potten. Dit is een mooie nieuwe gefranjerde serie. Daarnaast is er nu ook de Latinia Crispino serie die geschikt is voor de 12-15 cm pot.

Op zoek naar iets voor de kleinere potten? De Melange Micro serie biedt de perfecte oplossing voor de productie in kleine potten. De uniformiteit binnen de verschillende kleuren maakt het verpakken van de bloeiende planten makkelijker.

Voor de grote potten en als grootbloemige serie bieden we ook de Super Serie Leopardo aan. Deze serie is geschikt voor de 12-15 cm potten en goed bestand tegen de hitte.

Het kweken van Cyclamen in warme omstandigheden is niet eenvoudig. De Super Series Leopardo presteert uitstekend in warme omstandigheden en produceert prachtige bloemen van groot formaat. Wanneer u op zoek bent naar Cyclamen die tijdens de donkere en koude periode van het jaar gekweekt kunnen worden, dan is de Super Series Vintro de perfecte oplossing. De Super Series Vintro is minder gevoelig voor Botrytis en door zijn stevige plantbouw zeer geschikt voor de winterbloei.

Grote fan van de geur van een Cyclam? De Super Series Odora is een collectie geparfumeerde Cyclamen. Naast een heerlijke geur zijn deze planten ook zeer rijkbloeiend. Al met al genoeg om naar uit te kijken!

Wanneer u meer informatie wenst, staat ons team van professionals altijd voor u klaar!
