**VOLMARY® PLANT BREEDING AND INFORMATION CENTRE** 

Dear Ladies and Gentlemen,

With this, you receive the Volmary Young Plants & Seeds Catalog Spring 2024.

The range consists of our strongest varieties and has been expanded with many innovations. All varieties have performed excellently in international comparisons.

The popular **Lantana-Serie Evita®** with very early flowering is complemented by the attractive, bright flower colours of **Fire** and **Magenta** varieties. An attractive summer pot with Mediterranean flair and excellent flowering characteristics throughout the summer.

In the field of coneflowers, **Echinacea Unica®** brings a new variety of colours as a special colour series with partly bicolour flowers. There are also many new things to discover in the popular **Papallo® Series** with the **Purple** and **Milk** varieties as well as the improved **Deep Yellow** and **Orange Rose** varieties. All are available as vigorous plants in trays of 40 for 3-5L containers or trays of 84 for 13-19cm pots.

Blooming flower meadows from seed have been very popular with consumers for years, only direct sowing remains difficult for hobby gardeners. Here, **Naturbiente® flower mixes from 84 young plant tray** offer a real solution to the problem. They are ideal for easy and quick pre-cultivation of planting stock or the production of flowering containers. Available in six different mixed themes.

The sweet potato of **Erato® Vineland Early Orange** variety allows a significantly earlier harvest than many other sweet potato varieties. Depending on the start of cultivation and weather conditions, sweet potatoes can be planted from May to June. This allows a supply period for freshly harvested, regionally produced sweet potatoes from August until frost. Such products are clearly different from long-stored, imported overseas products.

Spring-autumn is the ideal start of cultivation for the divinely **BasiliVum®** varieties of Volmary. Whether the fragrant, colourful varieties of **Copa® series** or the robust, aromatic **Garden basil varieties of Tauris®**. Basil by nature has more to offer than the familiar, delicate basils from the supermarket.

Hobby gardeners like to plant colourful **FruchTeens® fruit** in handy 13cm pots among their bedding and balcony plants. **The potted raspberries Summer Lovers® Patio Red, Gold** and brand new **Orange**, which fruit on one-year-old wood, can still be potted in 8-10 weeks and will delight with fresh, delicious fruit already in the first garden year.

Many gardeners and marketers have recognized that good results can be achieved through targeted marketing work in partnership. Volmary makes a convincing impression about the product, in sales as well as online and creates emotional **Volmary® brand experience** with the colourful garden retail brand **Volmary®**.

The **Volmary online portal** offers you the possibility to order seeds & young plants around the clock, as well as many other advantages, such as insight into current availabilities and **marketing materials** for your sales.

The best products and targeted information are your success! Our international connections to science, breeders, young plant producers, production nursery, marketers and media provide you with leading breeding and first-hand knowledge. Take advantage of Volmary. Our experienced staff in the **office and field service** will advise you confidentially on questions of variety and culture.

With kind regards

HEAD OF SALES BERND KRÄMER

**VOLMARY® YOUNG PLANT PRODUCTION** 

#### **VOLMARY® – YOUR INDEPENDENT PARTNER**

Volmary GmbH is an independent, medium-sized **family business** in horticulture and a leading European plant-breeding company. As a strong and innovative partner in commercial horticulture, Volmary® stands by your side with developed plant brand concepts for the specialist garden trade and food retail trade.

Volmary® is internationally recognised in the following areas:

- Production and distribution of vegetatively and generatively propagated young plants of flowers, vegetables, herbs, and fruit
- Propagation and distribution of **seeds** (flower and vegetable seeds)
- Distribution of **vegetable bulbs**
- Classical plant breeding in the field of flowers and vegetables
- Control of the plant brand concepts Volmary® Plants and Soul Plants®

#### Products with the highest quality standards

The Volmary® young plant production produces Volmary® young plants using the latest seed and greenhouse technology. Work steps are supported by precise seeding technology and climate control. A computer-aided quality assurance system allows the delivery of high-quality, fully equipped trays. Our efficient logistics can deliver young plants reliably and in the shortest possible time. These guarantee our high-quality standard and enable a safe and successful further culture.

#### **Exclusive varieties**

New and particularly powerful varieties are paramount for offering your customers a modern and high-quality assortment of flowers and vegetables. Volmary®'s Plant Breeding and Information Centre in Münster offers great opportunities to become familiar with new varieties. Exact, practice-relevant cultural recommendations emerge from intensive varietal tests. All new varieties undergo multi-annual tests in Volmary® greenhouses and on their own Volmary® test fields, being also tested for outdoor and bed suitability.

Volmary offers a wide range of organic vegetables and herbs – and organic flowers are also available to you by arrangement. You will receive the full selection of organic young plants, organic cuttings (URC) and organic seeds.

We supply unrooted organic cuttings from our EU-certified mother plants. With Volmary's large selection of organic products, you can optimally plan the range for sustainable organic production.

And additional offers such as Multikraft® products let you implement a sustainable production approach. Please contact us, we shall gladly inform you.

#### **Variety Show Dates**

Several times a year, we open the doors of the Volmary® Plant Breeding and Information Centre for customers and prospects to explore the latest varieties. 23.-26.01.2024

# VOLMARY® PLANT BRAND CONCEPT

Convincing strategies create added value for production gardeners, the entire retail chain and end consumers alike.

CONTACT PERSONS VOLMARY® CONCEPT: BERND WENNINGHOFF, MANUELA MANEGOLD AND STEFANIE STÄRK

The Volmary® plant brand concept is aimed at producers who market their goods through the specialist garden trade. This concept stands for the values of Volmary's family business. Service, marketing support – from seeds to plants, Volmary® stands for the highest standards and premium quality. Plants are cultivated under licence by selected horticultural companies and marketed through the specialist horticultural trade.

Quality is the decisive factor: only the best varieties from professional horticulture – which guarantee success – are part of the Volmary® range.

- Commercially successful varieties variety that's fun!
- Year-round marketing programme
- Modern, fresh design
- Numerous sales promotion material for the optimal Volmary® plant presentation
- Effective multichannel marketing

Further information is available in our catalogue "Plant brand concept for the garden trade"

# **VOLMARY® SALES PROMOTION MATERIAL**

With the attractive Volmary® sales promotion material, you can present your Volmary® branded plants optimally and thus increase your sales.

A colourful design, for example of CC carts, can take place with CC corners, adhesive tape, toppers, sales signs, and informative flyers. This creates a good mood at the point of sale and favours sales. Use the numerous promotional materials for your Volmary® plant presentation.

www.volmary.com

## Volmary® active marketing support

The sales promotion of the Volmary® plant world is underpinned by versatile marketing. Thus, you benefit from a strong sales brand that captivates, inspires, and informs. Gain new customers with individual sales concepts and special promotions and improve your sales channels.

## Volmary® shapes marketing:

- Modern website for all target groups and active professional area on www.volmary.com
- Creative design on all important **social media channels** such as Facebook, Instagram, Pinterest and YouTube.
- End user blog with relevant focus topics on www.volmary.com/plant-happy
- Volmary® garden tips via Telegram, WhatsApp and/or Facebook Messenger
- Active speakers for specialist lectures
- Volmary® garden blogger meeting with intensive dialogue with hobby gardeners and influencers
- Editorial contributions in leading amateur gardening magazines, on radio and television
- Effective Volmary® print advertising in renowned hobby gardener magazines is aimed directly at the target group

# MULTIKRAFT® PLANT STRENGTHENING

Naturally effective

The family-owned company Multikraft® is the leading developer and manufacturer of effective microorganisms. With the help of this technology, Multikraft® produces ecological products with sustainable benefits for humans, animals, and the environment. Multikraft® works with nature as a model, promotes its regeneration and strengthens natural processes. To advance these processes, we rely on the smallest organisms – microorganisms that underlie all life on earth. The use of Multikraft® plant strengthening agents favours root formation and increases the resistance of plants to soil-borne diseases and pests. Furthermore, they boost germination, flowering, fruits, plant ripening and flower luminosity. This allows reducing or entirely doing away with pesticides.

The All-In-One products **MK Blumen** and **MK Gemüse** are particularly easy to use and prevent fungal diseases and pests. Stable growth and good branching is promoted by regular application via leaf spraying. Multikraft® products have been successfully deployed in ornamental plant and vegetable cultivation for years and offer an excellent opportunity to produce more environmentally friendly products. You can also do gardening with the power of nature.

Your Volmary® contact person will be happy to inform you about Multikraft®.

## **Upright growing varieties**

#### **EFRAIM'S GOLD**

- An upright growing Bidens with golden yellow flowers
- · Ideal for growing in pots with a high space occupancy
- A reliable, continuous bloomer for beds and containers

409695 Efraim's Gold Golden yellow

51 | 180 | URC

409695 Efraim's Gold

## **Compact varieties**

#### **INTERCEPTOR**

- A compact growing Bidens with giant flowers
- Bright, golden yellow flowers on short, firm stems
- Very good branching
- Ideal for marketing strong potted plants

409697 Interceptor Golden yellow 51 | 180 | URC

#### **PORT ROYAL**

- Golden yellow, semi-double flowers
- Very compact, round habit
- · Dark green foliage
- · Ideal for pots, colourful bowls and containers

409720 Port Royal Golden yellow 180 | URC

#### PORT ROYAL DOUBLE

- · Crown-like, double flowers in bright golden
- Very compact, mounded habit with good branching
- Dark green foliage highlights the brilliance of the flowers
- · Ideal for pots, colourful bowls or containers

409725 Port Royal Double Golden yellow

#### **YELLOW PEARL**

- · Compact growth, semi-spherical plant structure
- Pots are densely covered with flowers
- · Early blooming
- Ideal for production companies

409740 Yellow Pearl Golden yellow 180 | URC

409720 Port Royal

409725 Port Royal Double

409740 Yellow Pearl

409690 Bill's Medaillon

## **SIR FRANCIS**

- · Large-flowered Bidens with a compact habit
- · Golden yellow flowers with a dense ring of petals that also cover the centre of the plant
- · Flat, round plant structure with good branching
- · Ideal for smaller hanging baskets

409820 Sir Francis Golden yellow 180 | URC

## Varieties for hanging baskets

#### **GOLDITA**

- · Large, bright yellow flowers
- · Well-branched habit, overhanging growth later
- · Ideal for strong potted plants and rich-blooming hanging baskets

Take advantage of the **Volmary Kaldenhof® Days** to find out about our **wide range** of Calibrachoa. Our staff will be happy to advise you.

Volmary's Calibrachoa series **combine very early flowering, well-branched growth** and **breaking resistance of the shoots**. Their long flower opening delights end consumers and retailers alike.

The different series are specially composed to meet **varying vigour** requirements: from very compact-growing series with low inhibitor requirements for efficient and rational cultivation, to stronger-growing series for beautiful premium products. You will find the right varieties for your production in the Volmary range.

### **Hanging Fuchsia**

### **LEONITA**

- Compact growing series with ideal cultivation characteristics for pot sales.
- Richly branching, initially bushy growing, later overhanging
- Uniformly early flowering, even without exposure to light
- · Very numerous, single flowers in bright colours

## LEONITA SEMI DOUBLE 🍑 🏋

Semi-double flowering variety with an

· Well branched, flat-round plant structure • Early flowering even without exposure

· Ideal for pot cultivation and smaller hanging

overhanging growth

### M LEONITA XL

- · Large, bright flowers in attractive colours
- · Overhanging, medium-strong growth
- Good basal branching
- · Ideal for heavy pots or hanging baskets

baskets

### **LEONITA DOUBLE**

- Double-flowering series with overhanging growth.
- · Well-branched, flat-round plant structure
- Early flowering even without light
- · Ideal for pot culture and smaller hanging baskets

### MARBELLER™

- · Large, double flowers with attractive stripes
- · Hanging, vigorous habit
- · Imposing plants with good flowering, ideal for hanging baskets

#### **AUTUMN COLOURS**

- · A lively play of colours of the bronze-coloured petals with a red ring around the dark centre of the flowers
- An interesting complement to the yellow varieties
- · Well-branched habit, large flowers
- Ideal for the production of large container plants and for extensive bed plantings
- · Also suitable for cutting, height: approx. 50 cm

474850 Autumn Colours Bronze red shades

474850 Autumn Colours

474860 Cherokee Sunset

474810 Toto Rustic

#### **Generative varieties**

#### **AMARILLO GOLD**

- · A pot variety with very large, golden yellow flowers
- · Uniform, compact growth, height: approx. 30 cm
- Ideal for quality plants in pots and smaller containers for summer sales

474695 Amarillo Gold Golden yellow

180 | SEED

#### **CHEROKEE SUNSET**

SEED

- · Densely filled flowers shine in a warm play of autumn colours in bronze-coloured shades
- Stable and robust stems with long-flowering
- A continuous bloomer for bed plantings and floristry in early autumn, height: approx. 50 cm

474860 Cherokee Sunset Bronze shades

474800 Toto Gold

## **MAYA**

- · Densely filled, large flowers on stable stems
- Awarded with the Fleuroselect Gold Medal for its excellently rich bloom and uniformity
- · A high-quality bedding and container plant

474750 Maya Yellow SEED

## **DENVER DAISY**

- · Large, golden yellow flowers with a dark ring around the centre
- Robust and well-branched
- · An early blooming variety for beds and containers
- · Long flowering period: height: approx. 60 cm

474875 Denver Daisy Yellow with dark ring 180 | SEED

474875 Denver Daisy

#### **TOTO**

- A pot series with a compact structure and rich branching
- 5 cm large, bright yellow flowers with very long durability
- An attractive summer plant for pots, height: approx. 20 cm

474800	<b>Gold</b> Golden yellow	336   SEED
474810	<b>Rustic</b> Bronze red with yellow tips	SEED

#### **CLAIRE ORANGE**

- · Large, golden yellow flowers with very good shelf life.
- globose, sturdy growth with good basal branching
- · Ideal for the bedding season and as a summer pot plant, height approx. 25 cm

478648 Baristo® Double Pink

#### **SINGLE GOLD**

- An extensively tested, particularly powerful patula hybrid that is highly effective in fighting nematodes
- Quick plant development and a well-branched, higher habit with fast covering of the ground
- The dry mass production is about 100% higher than standard varieties
- Ensures an effective green manure, height: approx. 70 cm

478810 Single Gold SEED Yellow

#### **ANTIGUA F1**

- Uniform, early florescence, independent of day length
- · Robust, compact plant structure
- · Large, bright flowers

- The sister variety to 'Blondie' with lime green foliage and cream yellow flowers
- Similar growth characteristics

**449017** Blondie in Lime Lime green / cream yellow flowers

#### **PARIS**<sup>®</sup>

40 | 84

- Green foliage with silver markings
- The long-lasting, crimson pink flowers appear constantly from May until the frost
- The robust stems are suitable for cutting

**449090** Paris<sup>®</sup>
Green / crimson pink flowers

449005 Bella Notte

#### **CHERRY COLA**

- Warm, bright, vermilion flowers on short, strong stems
- Bronze-coloured foliage that is presentable in the winter
- Continuous flowering until late summer

449023 Cherry Cola

Brown / vermilion flowers

#### **RUBY TUESDAY**

- Intense, shining, chestnut-brown foliage with a silvery pattern and an attractive red colour in winter
- Harmonious plant structure thanks to a large number of smaller, strongly wavy leaves
- Rich thrust of sturdy pedicels with attractive, pink buds and white flowers

#### Single stem varieties

#### **SUNBRIGHT SUPREME F1**

- Pollen-free flowers with a diameter of approx.
   20 cm
- Good cutting quality and durability in vases

**446625** Sunbright Supreme F1 Golden yellow

SEED

#### **TIFFANY F1**

- Robust cutting variety for cultivating outdoors
- Golden yellow petals and a jet-black, pollen-free centre
- Dark green, glossy foliage
- Cultivation time is approx. 1 week longer than 'Sunrich Orange' F1
- Particularly recommended for outdoor cultivation on self-cutting fields

**446650 Tiffany F1**Golden yellow

SEED

#### **FULL SUN F1**

- Large, golden yellow petals and a black-brown ring without pollen
- · Very robust, vigorous habit
- Particularly suited for outdoor cultivation in poorer soils
- · Cultivation time is approx. 12 weeks

**446660 Full Sun F1**Golden yellow

SEED

#### **KING KONG**

- A variety with impressive growth
- Ideal for competitions for the largest sunflower or for use in striking exhibition plantings
- Forms giant leaves and flowers on the up to arm-thick stems
- Provided that enough water and manure is supplied, the stable plants can reach a height of up to 4.5 m

446700 King Kong Yellow

SEED

#### **SCHNITTWUNDER**

- A well-tried variety with single stems and a black centre
- Golden yellow ring of ray florets
- Open-pollinated variety for semi-professional outdoor cultivation

446800 Schnittwunder Yellow SEED

446625 Sunbright Supreme F1

446650 Tiffany F1

446660 Full Sun F1

446700 King Kong

**Branched varieties** 

#### TANJA® F1

- Pollen-free, branched variety of type 'Sonja'
- Small, upright flowers with a diameter of approx.

  10 cm
- Bright, golden orange petals and a contrast-rich, very dark centre
- · Ideal for using in bouquets and arrangements

**446900 Tanja® F1**Golden orange, small-flowered

128 | SEED

#### **STARBURST F1**

- · Semi-double series with a branched habit
- · Develops numerous, long lateral shoots early
- Attractive, pollen-free flowers in fresh colours

Golden yellow with dark centre

446920 Lemon Aura

Lemon vellow

446925 Panache

SEED

446900 Tanja® F1

Ferns

446920 Starburst Lemon Aura F1

- · Intense, wine red-coloured cutting variety with little pollen
- Vigorous habit, early pruning promotes the development of high-quality side shoots
- An attractive variety for unique autumn arrangements

446990 Claret F1 Wine red SEED

446960 Rumi Bicolor Cherry F1

446925 Starburst Panache F1

#### **GOLDRUSH F1**

- · Very early blooming, branched variety
- Yellow, pollen-free flowers with a dark centre and a diameter of 15 cm
- Early pruning promotes the formation of numerous solitary stems with a length of 80 cm
- Ideal for small-flowered products at the beginning of the season

446995 Goldrush F1 SEED Golden yellow with dark centre

446977 Dancing Sun F1

#### **RUMI F1**

- · Vigorous plants form numerous flower stalks
- · Medium-sized, pollen-free flowers in bright colours
- · Wide spacing and pinching off the first bud promotes the formation of 5-7, high-quality flower stalks per plant
- · Well suited for outdoor cultivation with a long harvesting period
- · Due to the long flowering time, also interesting for background plantings in public areas

#### **DOUBLE QUICK F1**

- Variety for cutting with golden yellow, double flowers
- Short cultivation time
- The low stems are ideal for cut cultivation in the summer

446760 Double Quick F1 Golden yellow

SEED

#### **SONJA**

- Bright orange flowers with a diameter of 10 cm
- Very good, medium-long cutting quality
- Very well-branched plants

447100 Sonja Golden yellow, small-flowered

447100 Sonja

#### **HOLIDAY**

- · Cutting variety with strong basal branching
- · Long, solitary stems
- · Golden yellow flowers with a dark centre
- · For outdoor cultivation in the summer

447135 Holiday SEED Golden yellow

#### **RING OF FIRE**

The individual flowers with approx. 50 cm long stems or the entire plant with 4 to 6 flowers can be harvested

447145 Ring of Fire SEED Fiery red, golden yellow

#### **SORAYA**

flowers

- · Golden orange flowers that grow almost horizontally on the very stable stems
- · Produces only little pollen
- · Branched habit
- An attractive enrichment for medium late to late harvests outdoors

447165 Soraya SEED Golden orange

#### **VERZWEIGTE MIX**

- This mixture includes different pollen-free cutting varieties with branched growth for outdoor cultivation
- · For diverse sunflower bouquets in different shades of yellow and red
- Rich development of side shoots allows harvesting to take place over many weeks without interruption

447215 Verzweigte Mix SEED

447145 Ring of Fire

419520 Baby Boo

419550 Bicolor Pear

419560 Bicolor Spoon

#### **BLACK KAT F1 (C. PEPO)**

- · A ribbed blackish green pumpkin that turns orange late in October
- Bushy growth, early yield
- Good resistance to mildew
- Fruit weight: approx. 400-600 g, suitable for the microwave

419561 Black Kat F1

#### FLAME F1 (C. PEPO)

SEED

SEED

- · Cream yellow pumpkin for microwaving with orange stripes and pronounced shoulder
- Diameter: approx. 8-10 cm
- Moderately slender
- · Healthy growth, resistant to mildew

419605 Flame F1

400

#### **ICICLE (C. PEPO)**

- · White mini pumpkin with very good suitability for decorative purposes.
- Beautifully ribbed, edible fruits with thick stalk. fruit weight approx. 400-800 g
- · Little climbing plants, good resistance to powdery mildew
- · Harvest white fruits early and store in the dark

419655 | Icicle F1

SEED

#### BUSH DELICATA (C. PEPO)

SEED

- · Elongated, cream-coloured fruits with green stripes
- · Tender pulp, good variety for filling
- · Little climbing habit
- · Earlier harvesting

419564 Bush Delicata

SEED 7009

#### **GOLD DUST F1 (C. PEPO)**

- · Very high yielding mandarin pumpkin with a moderately vigorous habit
- High resistance to powdery mildew
- Diameter: approx. 8-10 cm

419610 Gold Dust F1

7009

#### **LIL' ORANGE MON** (C. PEPO)

- · The skin of the tangerine-shaped fruits is intense bright orange
- The fruits reach a diameter of approx. 12-15 cm
- Very decorative, long, dark green stems

419670 Lil' Orange Mon

SEED

#### **CASPERITA F1 (C. PEPO)**

- weight of approx. 300 g Very much improved with regard to the
- colouration, yield and uniformity when compared to the small-fruited variety 'Baby Boo'
- Tolerant to powdery mildew
- · Medium early ripening, ripening period: 90 days

419566 Casperita F1 SEED

#### **GREMLINS (C. PEPO)**

- Contains star-shaped, pear-like, winged and mushroom-shaped fruits
- Medium early ripening, fruit size: approx. 12-15 cm

419630 Gremlins SEED

#### **CELEBRATION F1**

#### (C. PEPO)

- · Heart-shaped, edible fruits with cream yellow main colour and green-yellow marking
- Slightly smaller fruits than 'Harlequin', diameter: approx. 10-12 cm, weight: approx. 600 g
- Medium early, good yield

#### 419570 Celebration F1 400

## **HARLEQUIN (C. PEPO)**

- · Flat, round, grooved fruits with shoulders
- · The colours range from cream white to yellow with dark green spots
- · Edible fruits with a very good shelf life
- · Diameter: approx. 12 cm

419640 Harlequin 400

SEED

#### **DELICATA (C. PEPO)**

SEED

- · Oblong, cream-coloured fruits with green stripes and slight grooves, length: approx. 20 cm
- Tender flesh

419590 Delicata SEED 7009

#### **HOARGARTH (C. PEPO)**

- Golden yellow fruits with dark green markings reminiscent of spilled paint
- Attractive wart, flat-round fruit shape with a long stem
- Fruit size approx. 10-15 cm

419645 Hoargarth SEED

#### **JACK BE LITTLE (C. PEPO)**

· Flat, round, dark green, ornamental fruits with highly contrasting, light stripes

**FLAT STRIPED (C. PEPO)** 

- Fruit size: approx. 8 cm
- · Early and productive

419600 Flat Striped SEED

- Bright orange fruits that resemble tangerines
- Diameter: 10-12 cm
- Attractive, edible ornamental pumpkin

#### **SPINNING GOURD** (C. PEPO)

**SNOWBALL F1 (C. PEPO)** 

and a highly rounded shape

Fruit weight approx. 0.8-1 kg

white colour

419725 Snowball F1

· Small, very white fruits with a pronounced stem

· Grows compactly with an early start to yield

Dark storage promotes the preservation of the

SEED

- · Small, pear-shaped fruits with dark green skin and light stripes
- Fruit size: approx. 5-7 cm
- · Can also be used in floristry as decorative fruits

419730 Spinning Gourd

419690 Mini Red Turban

#### **MINIWARTS F1 (C. PEPO)**

SEED

- · Dense orange fruits covered with green warts.
- Fruit weight approx. 0.9-1.5 kg, diameter approx.
- · High resistance to powdery mildew
- Modest climber

419692 Miniwarts F1 NEW

SEED

#### **SWEET DUMPLING** (C. PEPO)

DF-ÖKO-013|SFFD

SEED

- Tasty fruits with a diameter of 10-12 cm
- · Dark green stripes and spots form a very striking contrast to the cream white skin
- · Orange-yellow, sweet flesh
- The fruits keep approx. 3-4 months

419740 Sweet Dumpling

419680 Little Pump-Ke-Mon

NEW

#### **MISS SOPHIE PINK** (C. MAXIMA)

- · Salmon pink coloured, ornamentally ribbed fruits with eye-catching stems
- Very tasty, thin flesh
- Fruit weight: approx. 400-600 g, diameter: approx. 10-12 cm

419695 Miss Sophie Pink

#### **SWEET LIGHTNING** (C. PEPO)

- · Flat, round pumpkins in mandarin form with deep orange stripes and light-coloured skin
- The 500 g fruits are very tasty and can be cooked in the microwave

419750 Sweet Lightning SEED 1009

#### **ROLET (C. PEPO)**

SEED

- · Dark green, glossy, slightly spherical balls with a smooth, hard skin
- Productive, brings good contrasts into the pumpkin assortment
- Edible when young, diameter: approx. 7 cm

419710 Rolet SEED 7009

#### **WARZEN ORANGE** (C. PEPO)

- · Flat, round, light orange fruits that are covered with numerous warts
- · Rich and reliable yield, keeps well
- Diameter: approx. 10 cm

419780 Warzen Orange SEED

#### **SAM ORANGE (C. PEPO)**

- Golden orange 'Jack Be Little' type with very distinctive stems and larger fruits that have a diameter of approx. 10 cm
- Suitable for microwaving
- High resistance to mildew and reliable, high

419715 Sam Orange

400

DE-ÖKO-013|SEED

#### **WEE-B-LITTLE (C. PEPO)**

SEED

- · Very early, high yielding mini pumpkin
- · Bright, golden orange skin and deep greencoloured stems
- · The fruits are edible when young and can be used as "soup cup pumpkins"
- Diameter: approx. 10 cm

419790 Wee-B-Little

400

419695 Miss Sophie Pink

#### HONEY BEAR F1 (C. PEPO)

- Small-fruited acorn squash with sweet, very starchy flesh
- Fruit weight: approx. 500 g
- · Bushy growing plants with early, dense fruit set
- · Tolerant to mildew
- · Ideal single squash for direct marketing

419650 Honey Bear F1 SEED 4004

MINI ACORN GOLD

- · Golden yellow mini acorn with a fruit weight of approx. 500 g
- Sweet, tender flesh

(C. PEPO)

- Medium early yielding, fruits can be stored well
- Robust, vigorous plants

419685 Mini Acorn Gold SEED 101

#### WHITE PEARL (C. PEPO)

- · Small, almost round acorn squash with white skin for decoration and food purposes
- Bushy growth with few tendrils
- · The yellow-fleshed fruits reach about 500 g in weight

419793 White Pearl SEED 404

#### **TABLE MIX (C. PEPO)**

- · Attractive mix of three different coloured, grooved acorn squashes
- · Little creeping, early yield
- · Golden yellow, edible flesh
- · Fruit size: approx. 20 cm

419900 Table Mix SEED

419650 Honey Bear F1

419685 Mini Acorn Gold

419793 White Pearl

#### **Butternut squash**

#### **ANGELIOUE** (C. MOSCHATA)

- Small, round fruits with an ochre-yellow colour
- High-quality, thick flesh and small seed cavity
- Attractive butternut for smaller households, fruit weight approx. 1 kg

420087 Angelique

SEED

#### **ARIEL F1 (C. MOSCHATA)**

- Butternut squash with a high yield potential and very uniform fruits that weigh 1-1.5 kg
- Fruits have a low tendency to crack and a large amount of flesh
- The vigorous growing plants and the high resistance to powdery mildew ensure a long growth phase

420090 Ariel F1 1001

SEED

#### BARBARA (C. MOSCHATA)

- A green butternut squash with light stripes
- · The fruit flesh has an excellent quality, intense colouring and is very tasty
- Requires heat during cultivation, pre-cultivation in the spring is recommended for cooler locations
- Fruit weight: approx. 2-3 kg

420100 Barbara

SEED

#### ATLAS F1 (C. MOSCHATA)

SEED

- · Very reliable butternut squash with large, elongated fruits that weigh approx. 2-3 kg
- The good fruit set over a long period of time ensures a high yield
- High sugar content and good flavour, ideal for processing

420095 Atlas F1

SEED

#### **BEJA (C. MOSCHATA)**

- · Larger butternut with 2-2.5 kg fruit weight
- Peel changes colour from dark green to bright
- Deep orange, carotene-rich flesh of excellent quality

**420104** Beja

420087 Angelique

420110 Early Butternut F1

#### **EARLY BUTTERNUT F1** (C. MOSCHATA)

- Bell-shaped, pale yellow coloured musk pumpkin.
- · Orange-coloured, sweet-aromatic flesh
- · Medium-early fruit set, fruit weight approx.

420115 Early Butternut F1

SEED

#### **HONEYNUT** (C. MOSCHATA)

- · Mini butternut squash with dark orange flesh and a melon aroma
- · The cylindrical fruits that weigh approx. 600 g change colour from green to brown
- Good resistance to mildew

420125 Honeynut

SEED

#### **HUNTER F1** (C. MOSCHATA)

- · Early maturing butternut squash with a fruit weight of approx. 1.2 kg
- · High yielding, long fruits
- · 'Hunter' F1 bears fruits early and reliably, even under cooler conditions

420130 Hunter F1

SEED

- · Smaller butternut with a high level of yield
- · Uniform fruit size, high proportion of marketable
- · Forms short tendrils
- · Good mildew resistance

#### **LONGUE DE NICE** (C. MOSCHATA)

- · Fruits with a length of up to 1 m that thicken towards the end
- The dark green, smooth skin later turns light brown
- Very durable and good storability
- Sweet flesh, fruit weight: approx. 6-10 kg

420135 Longue de Nice 7009

#### **PIENA DI NAPOLI** (C. MOSCHATA)

green to orange

weight: 10-20 kg

420144 Piena di Napoli T09

· Heavy, club-shaped fruits that mature from

· Thicker and heavier than 'Longe de Nice'

· The tasty fruits have firm, orange flesh, fruit

The fruits weigh 0.6-1.2 kg and have a high percentage of flesh

· Good resistance to mildew

**VEENAS F1** 

(C. MOSCHATA)

· Ideal for selling single fruits

SEED 420155 Veenas F1

#### SEED

### METRO F1 (C. MOSCHATA)

- · Very uniform butternut type with medium-sized fruits that weigh approx. 1.4 kg
- Highly tolerant to powdery mildew
- High dry substance content and good shelf life
- Short shoots and medium-late ripening fruits with smooth, light brown skin

420140 Metro F1 SEED

#### **GRANITE F1** (C. MOSCHATA)

SEED

- A reliable and proven main variety for professional cultivation
- · High proportion of marketable fruits, few bursts, good shelf life
- Early fruit set, fruit weight when ripe: approx. 1.5-2 kg

420117 Granite F1 SEED 7009

#### **SONCA (C. MOSCHATA)**

- Medium-sized butternut with 1–1.5 kg fruit weiaht
- The skin changes colour from dark green to bright bronze
- Known as ham pumpkin in Hungary
- · Dark orange, firm flesh of excellent quality

420148 Sonca SEED

# **MIELUNA F1**

(C. MOSCHATA)

- · Early bearing butternut with very uniform fruit size.
- Fruit weight approx. 1-1.3 kg
- · Rich and secure fruit set
- Good resistance to powdery mildew

SEED 420141 Mieluna F1 NFW 409

#### **PLUTO F1 (C. MOSCHATA)**

- The long-lasting fruit set and the low tendency to crack ensure a high yield of medium-sized fruits that weigh 1-2 kg
- Good quality of the flesh, ideal for processing
- · The vigorous plants have good resistance to mildew

420146 Pluto F1 SEED

420135 Longue de Nice

#### **NUTTERBUTTER** (C. MOSCHATA)

- Open-pollinated butternut with approx. 1.5 kg fruit weight
- · Uniformly shaped fruits with good flesh quality
- Medium-strong climbing quality

420142 Nutterbutter DE-ÖKO-013|SEED

#### **PILGRIM F1** (C. MOSCHATA)

- · A reliable and proven main variety for professional cultivation
- · High proportion of marketable fruits, few bursts, good shelf life
- · Early fruit set, fruit weight when ripe: approx. 1.5-2 kg

420145 Pilgrim F1 84 | SEED

420140 Metro F1

#### **PIXY F1 (C. MOSCHATA)**

- · High-yield butternut with a fruit weight of approx. 1-1.2 kg.
- · Uniformly shaped fruits with good flesh colour and flavour.
- Robust in growth and medium-strongly climbing

DF-ÖKO-013ISEED 420143 Pixy F1 NEW

#### ULTRA F1 (C. MOSCHATA)

SEED

- · Large-fruited butternut squash with oblong, slightly curved fruits
- · Vigorous habit and medium late maturing
- Fruit weight: 4-5 kg, ideal for processing

## CINDERELLA (C. MAXIMA)

- Bright red, flat fruits with marked ribs and a reliably high yield
- Good shelf life and edible, golden yellow flesh
- · An attractive ornamental pumpkin with a diameter of approx. 40-50 cm

421060 Cinderella SEED 4004

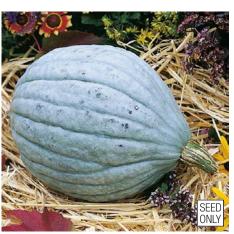

## **CROOKNECK (C. PEPO)**

SEED

- · Golden yellow, club-shaped fruits with bent necks
- Densely covered with warts
- · Early maturing, little creeping
- · Fruit length: approx. 25 cm

421070 Crookneck

421040 Blue Hubbard

421090 Cushaw Green Stripe

## **ATLANTIC GIANT** (C. MAXIMA)

- · Giant pumpkin for competitions, single fruits can reach more than 400 kg
- · Light orange skin with slight grooves
- · Edible flesh
- · Vigorous tendrils

421110 Atlantic Giant T09

## **ISTANBUL (C MAXIMA)**

- · Blue-gray ribbed selection of the popular
- Strong growing plants that need warmth
- Deep orange, sweet pulp with a pleasant aroma
- Fruit weight approx. 8-12 kg

Turkish honey squash

SEED 421189 Istanbul 7009

## **GRIZZLY BEAR F1** (C. PEPO)

- · Light brown fruits with pronounced warting and strong stalk.
- · High yield of uniform fruits of approx. 3 kg
- · Resistant to powdery mildew
- · Eye-catching decorative pumpkin, also suitable for eating

421183 Grizzly Bear F1

NFW 700 SEED

## **FLAT WHITE BOER** (C. MAXIMA)

SEED

- · Cream white, flat, round fruits with a diameter of approx. 40 cm
- Vigorous habit
- Edible, fruit weight: approx. 8-10 kg

421130 Flat White Boer SEED

## **FUNGO (C. MAXIMA)**

- · Uniform, medium-sized turban pumpkins with a predominantly orange-red colour
- · Medium-strong trailing, plants that set off early

421137 Fungo

## **MARINA DI CHIOGGIA** (C. MAXIMA)

- · Greyish green, warted, turban-shaped, diameter: approx. 25 cm
- · Edible, orange-red flesh

421270 Marina di Chioggia

SEED

## **GALEUSE D'EYSINES** (C. MAXIMA)

- · Flat, round fruits with light orange colour are strikingly covered with light warts
- The warts resemble peanuts, therefore it is also called peanut pumpkin
- Edible, fruit size: approx. 30 cm

SEED 421150 Galeuse d'Eysines 4009

## **JARRADAHLE** (C. MAXIMA)

- · Greyish blue, flat, round fruits with striking, marked grooves Edible and also durable as a decorative pumpkin
- Diameter: approx. 25 cm

421190 Jarradahle SEED 101

## MOONSHINE F1 (C. PEPO)

- · Very uniform, white-coloured, medium-sized fruits that weigh approx. 3-5 kg
- The skin is very smooth, the long stems are dark green

SEED 421280 Moonshine F1

## **GARBO (C. MAXIMA)**

SEED

- Pink to terracotta-coloured fruits with flat, round shapes and distinct ribs
- Very decorative for floristry in autumn
- Good durability and suitability for soups

(GELBER ZENTNER) (C. MAXIMA)

Popular, yellow-skinned, giant pumpkin with

apricot-yellow, coarse skin and a flat, round

Good shelf life, fruit weight: approx. 12 kg

421170 Gele Reuzen (Gelber Zentner)

Good flavour and particularly suitable for sweet/

· Fruit weight: approx. 1-3 kg

**GELE REUZEN** 

sour canning

Very vigorous habit

1009

421160 Garbo SEED

## KAMO KAMO (C. PEPO)

- · Small 'Tonda Padada' type with distinct ribbing
- · The fruits mature from dark green to ochre yellow
- Edible, fruit diameter: approx. 15 cm

421200 Kamo Kamo SEED

## **KNUCKLE HEAD F1** (C. PEPO)

- · The vertically oval fruits are covered with eye-catching warts
- Dark orange skin colour, slightly ribbed
- Fruit weight: approx. 5-7 kg

421210 Knuckle Head F1 SEED

## **INVINCIBLE F1**

- · Whitish grey, flat, round pumpkin with a good to peel, easy to cut
- Deep orange, thick flesh
- · Compact growing and uniform, early ripening
- Good shelf life, fruit weight: approx. 4.5 kg

421187 Invincible F1 **SFFD** 709

421130 Flat White Boer

421110 Atlantic Giant

## **PENELOPA (C. PEPO)**

- Pumpkin with skinless seeds for eating or baking and for producing pumpkin seed oil
- · A high yielding, proven variety for field
- The orange fruits with green speckles have a diameter of approx. 25 cm

421305 Penelopa SEED 101

## **ROUGE VIF D'ETAMPES** (ROTER ZENTNER) (C. MAXIMA)

- · Large, orange-red, flat, round fruits with wide
- Golden yellow, edible flesh
- Beautiful, ornamental pumpkin for Thanksgiving and autumn decoration

Rouge vif d'Etampes (Roter Zentner) 404

DE-ÖKO-013|SEED

## **WHITE HEAVEN F1** (C. MAXIMA)

- · Flat, round, white fruits with elegant, ribbed skin
- · Dark orange, massive flesh
- · Can be stored well
- · Uniform fruit size of approx. 7 kg

421445 White Heaven F1 SEED

## PEPITA (C. PEPO)

SEED

- · Flat, round fruits with an orange and green pattern on the white, smooth skin
- Prefers warm locations, pre-cultivation is recommended
- Edible, keeps well, fruit size: approx. 40 cm

421310 Pepita

## SIAM (C. PEPO)

- · Light green, oval fruits with light spots
- · Hard-skinned fruits with cream white flesh
- Suitable for making jam
- · Fruit size: approx. 30 cm

421380 Siam SEED

421305 Penelopa

## **PINK JUMBO BANANA** (C. MAXIMA)

- · Oblong, initially green, later on light pink coloured fruit
- · Medium-late maturing, edible
- · Length: approx. 40-70 cm

421330 Pink Jumbo Banana SEED T09

## TONDA PADANA (C. PEPO) 👺 😭

- · Fruits with green and yellow stripes and distinct ribs on the skin
- · Keeps very well with solid, orange flesh
- Fruit weight: approx. 2-4 kg

421420 Tonda Padana SEED 101

## **PORCELAINE DOLL** (C. MAXIMA)

- · Flat, round, large fruits with very attractive, light pink, shimmery skin
- · Dark orange, edible flesh
- · Late ripening, pre-cultivation improves the yield
- · Resistant to powdery mildew
- Attractive ornamental pumpkin, fruit weight: approx. 10 kg

421335 Porcelaine Doll SEED

## WARTY GOBLIN (C. PEPO)

- A large pumpkin for carving and ornamental use with dark green warts on the orange skin
- Moderately climbing habit, medium early ripening
- · Good resistance to mildew
- · Fruit weight: approx. 4-8 kg

421438 Warty Goblin SEED

421310 Pepita

## **QUEENSLAND BLUE** (C. MAXIMA)

- · Greyish blue to dark green, glossy, turbanshaped, grooved fruits
- Tasty flesh
- · Keeps well
- · Fruit weight: 2-4 kg

421340 Queensland Blue 409

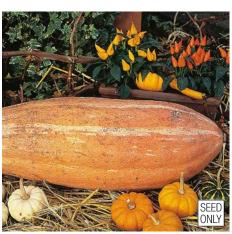

SEED

## **WARZEN ROT** (C. MAXIMA)

## **Pumpkins for carving**

## **BABY MOON F1 (C. PEPO)**

- · Round, white fruits with smooth skin
- · Ideal for arrangements and for unusual decorations
- · Mildew tolerant, fruit weight approx. 2.5-3 kg

421697 Baby Moon F1

SEED

## **CARRIE F1 (C. PEPO)**

**FLYNN (C. PEPO)** 

- · Evenly and beautifully coloured fruits with slight ribbing for carving and decorating
  - Round to very round fruits weighing approx. 7-8 kg with good shelf life
  - Restrained growth with short tendrils
  - · High mildew tolerance

421737 Carrie F1 4009

- Small pumpkin for carving that weighs 3-4 kg with intense orange, ribbed skin

- Approx. 20-25 cm large fruits with thick, dark green stems
- Good resistance to powdery mildew, few tendrils

• The fruits are very durable if they have been harvested when well ripe

421775 Flynn

SEED

## **BABY PAM (C. PEPO)**

- · Round, bright orange fruits with a diameter of approx. 15 cm
- Firm, smooth skin with slight grooves
- · High yield and robust habit
- The fruits weigh approx. 1-2 kg and are ideal for smaller carving pumpkins as well as for eating

421700 Baby Pam 7009

## **CHAMPION F1 (C. PEPO)**

SEED

- · Very large, comparatively early maturing pumpkin for carving
- Fruit weight: approx. 15-20 kg
- · Well-ribbed, deep orange skin, the stem is thick and medium long

421740 Champion F1 7009

## **FORT KNOX F1 (C. PEPO)**

- · Smaller carved pumpkin with approx. 2.5-3 kg fruit weight.
- · High yield of deep orange, beautifully ribbed fruits with a slightly blocky shape.
- Thick, dark green stems
- Resistant to powdery mildew and vigorously climbing

421776 Fort Knox F1

## **BIG MAX (C. MAXIMA)**

- · Pumpkin for carving and decorating with large, deep orange fruits
- Edible flesh
- · Vigorous habit, medium late ripening
- Fruit weight of up to 50 kg is possible

SEED 421710 Big Max

## **CHUCKY F1 (C. PEPO)**

SEED

- · Very early maturing, high yielding pumpkin
- · Minimal formation of tendrils
- · Uniform fruits that weigh approx. 1-1.5 kg
- · Ideal for children to carve and paint

421760 Chucky F1 SEED TO 9

## **HOWDEN (C. PEPO)**

SEED

- · Proven, oval-shaped pumpkin for Halloween
- Medium late ripening, good shelf life
- Fruit weight: approx. 8-12 kg

421780 Howden

DE-ÖKO-013|SEED

700

## **BIG MOOSE (C. MAXIMA)**

- A very large pumpkin for carving and displaying
- Orange with light stripes
- Fruit weight: approx. 25-50 kg

421715 Big Moose 101

## **CHARMANT F1 (C. PEPO)**

- Very uniform, flat-topped, round to blocky fruits with orange, slightly grooved skin
- High, reliable yield
- · Somewhat later and larger than 'Racer' F1, weight: approx 7-9 kg
- · Short shoots, high tolerance to powdery mildew

421750 Charmant F1 SEED 4009

## SEED ONLY

421697 Baby Moon F1

## **BIG ROCK F1 (C. PEPO)**

- · Heavy carving pumpkin with round to blocky shape, slightly wider than 'Rockstar' F1
- Firm, early colouring, deep orange skin and strong stem
- Medium early ripening, weight: approx. 7 kg up to more than 10 kg

421720 Big Rock F1 SEED

## **CRONUS F1 (C. PEPO)**

- Dark orange pumpkin for carving and cooking with very strong, dark green stems
- Heavy, round to blocky fruits, approx. 15-20 kg
- High tolerance to powdery mildew
- · Vigorous, robust habit with high yield
- · Medium late harvest

421770 Cronus F1 SEED 7009

## **CARGO F1 (C. PEPO)**

- Intense, orange-coloured, high-round fruit
- Dark green, thick stem
- Short tendrils and good resistance to powdery mildew
- · Fruit weight: 9-12 kg

## **HOWDEN BIGGIE** (C. PEPO)

- · Very vigorous, voluminous pumpkin for cooking and carving in oval to blocky shapes
- The fruit size (15 kg, a good portion more than 20 kg) is larger than that of 'Rockstar' F1
- Medium late ripening, strong, clearly grooved, orange skin

421790 Howden Biggie 7009

SEED

## **ORANGE SMOOTHIE F1** (C. PEPO)

- · Handball-sized pumpkin for handicrafts with
- particularly smooth, light orange skin - Early and high yielding on short shoots, approx.
- 2-3 ka
- Ideal for painting and carving

421840 Orange Smoothie F1 SEED T09

## **RACER PLUS F1 (C. PEPO)**

- Flat, round pumpkin for carving of type 'Racer' with a high tolerance to mildew
- Strong stems and deep orange, slightly ribbed
- An efficient variety for professional cultivation, fruit weight: approx. 6-8 kg

421910 Racer Plus F1

84 | SEED

## **KRATOS F1 (C. PEPO)**

- · Flat, round, orange quality fruit with distinctive, dark stems
- · High resistance to mildew, good yield
- · Sturdy, but short, trailing habit

SEED 421802 Kratos F1 7009

## **MAGICIAN F1 (C. PEPO)**

- · An attractive, round standard pumpkin for carving
- Dark orange, high-round fruits
- · Good and reliable yield, resistant to mildew
- · Ripens early, fruit weight: approx. 5-6 kg

421804 Magician F1 SEED POP

## **RENEGADE F1 (C. PEPO)**

- Dark orange coloured, massive pumpkin for carving with beautiful ribbing
- · Good and reliable yield, high mildew resistance
- · Only moderately trailing
- Good skin quality and durability

421915 Renegade F1 SEED 101

## JACK O LATERN (C. PEPO)

SEED

· Pumpkin for carving with mainly round fruits, weight: 4-5 kg

421800 Jack O Latern 7009

**OWLS EYE F1 (C. PEPO)** 

- · Thick, firm stems and a flat fruit base
- High resistance to mildew
- Fruit weight: approx. 4-7 kg

421846 Owls Eye F1 SEED

## **NEON F1 (C. PEPO)**

- · Exceptionally early maturing pumpkin for
- Smooth, orange skin and a fruit weight of approx. 3 kg

421820 Neon F1

SEED

## MYSTIC PLUS F1 (C. PEPO)

- · Intense orange-coloured pumpkin for decorating and cooking with yellow flesh and a good flavour
- Uniform fruits with a weight of approx. 2.5 kg
- · Reliable yield, slightly tendriled

421810 Mystic Plus F1 SEED

## (C. MAXIMA)

- · Giant pumpkin for contests and carving
- · Orange, grooved skin, fruit weight over 40 kg is possible
- · Vigorous habit

421870 Prizewinner F1 SEED 7009

## **PRIZEWINNER F1**

## **MISCHIEF F1 (C. PEPO)**

- Small pumpkin for carving and cooking with a fruit weight of approx. 1-1.5 kg
- High yielding, early variety with tolerance to powdery mildew
- The skin is slightly ribbed, deep orangecoloured and moderately firm
- Ideal for using as a smaller pumpkin for children to carve

SEED 421805 Mischief F1 7009

## **POLAR BEAR F1** (C. MAXIMA)

- · White, round fruits that weigh 15-25 kg
- · Very vigorous habit
- An attractive speciality for carving and painting for Halloween

421860 Polar Bear F1 SEED

## **RACER F1 (C. PEPO)**

- · Flat-spherical to spherical pumpkin with early maturity
- · Deep orange coloured fruits with bent, strong
- Diameter: approx. 30 cm, weight: approx. 6-8 kg
- Proven standard variety

## **ROCKET F1 (C. PEPO)**

- · Medium early maturing pumpkin with deep orange, slightly grooved skin
- Fruit size: approx. 25-30 cm
- Excellent for carving jack-o'-lanterns or gruesome pumpkin faces at Halloween
- · Also ideal as a large-fruited pumpkin for cooking

421940 Rocket F1

• The diameter of the fruit reaches approx.

different shapes and colours

**SCHNITZKÜRBIS MIX** 

Ideal for carving, handicrafts and decorating

· A mixture of early and medium early varieties in

- 10-50 cm
- · All varieties are edible

422000 Schnitzkürbis Mix

SEED

421960 Spirit F1

421975 Sunlight F1

## **ROCKSTAR F1 (C. PEPO)**

- · Vertically oval, approx. 50 cm high, uniform, deep orange fruits that weigh 15 kg or more
- Medium early maturing and resistant to adverse weather conditions
- Develops strong shoots

421950 Rockstar F1

SEED

## **TERRAFIN F1 (C. PEPO)**

- Smaller carving pumpkin, ideal for supermarkets
- · Lightly ribbed, orange fruits with good stems
- · Very uniformly sized fruit of approx. 4 kg

421955 Terrafin F1

SEED

## **SPIRIT F1 (C. PEPO)**

- · Pumpkin for carving and cooking that matures early and uniformly for early sales
- Slightly ribbed, bright orange fruits
- Diameter: approx. 25 cm, fruit weight: approx. 4-5 kg

421960 Spirit F1 101

SEED

## **SUNLIGHT F1 (C. PEPO)**

- Golden yellow, medium-sized pumpkin for carving and cooking
- A unique colour in the assortment
- · Robust, dark green stem
- · Tolerant to mildew
- · Vigorous habit, fruit weight: approx. 2.5 kg

421975 Sunlight F1 101

SEED

## **WOLF (C. PEPO)**

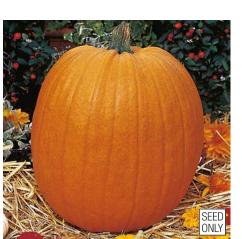

- · Carving pumpkin with a particularly massive, dark green stem
- Slightly flattened, almost round fruits, deep orange, firm skin, slightly ribbed
- Medium late ripening, fruit weight: approx. 8-12 kg

## **Container varieties**

## **RAINDROPS**

- The numerous fruits hang on the sturdy shoots like little raindrops
- · Maturation is from yellow to red and provides an attractive play of colours
- Pleasant spiciness with a slight lemon aroma
- Ideal for larger pots and containers, height: approx. 50 cm

415237 Raindrops Yellow / red SEED

## **NIGHTFIRE**

- · The violet black fruits that later turn bright red stand like blazing flames above the dark foliage
- Well-branched, slightly spreading plant structure
- Child-friendly fruits with a mild flavour
- Ideal for containers and high-quality potted plants in late summer, height: approx. 30 cm

415243 Nightfire Dark violet / red SEED

## **RED TEMPTATION**

- · Up to 20 shiny, deep red fruits tempt one to snack
- · They are sweet with a very mildly spicy taste and approx. 12-14 cm long
- The plants reach a summer height of about 50 cm, ideal for fruit-bearing sales in small containers

415245 Red Temptation

180 | SEED

## **HOT BANANA**

- · The upright, longish fruits reach a length of 12 cm and are presented freely above the foliage
- Cream yellow fruits mature to a deep red colour
- Moderately hot
- Genetically compact growing

415250 Hot Banana Red / yellow

SEED

## **RED MAMBA**

- · Medium hot peppers for the production of larger containers in summer
- · Fruits change colour from black to red
- · Ideal for early sales
- Approx. 70-80 cm height

415291 Red Mamba Red

SEED

## **HOT CHOCOLATE**

- · The chilli fruits look like delicious chocolate, but have an aromatic spiciness
- Rich yield of approx. 8-10 cm long, drooping fruits, a real feast for the eyes
- · Sturdy, low growing plants for pots and containers
- Height at the end customer: approx. 60 cm

**Hot Chocolate** Chocolate brown

SEED

## **HOT FAJITA**

- Spicy pot pepper for early sales
- Red, approx. 10 cm long fruits hang conspicuously on the plants
- · Ideal for quality potted plants with a fruit set or smaller containers with unripe fruits

415273 Hot Fajita

180 | SEED

## **HOT BURRITO**

- · Upright growing, red fruits that are moderately spicy
- Good presentation of the fruits above the dark green foliage
- · Firm, stable stems
- · Low growing, ideal for sales of fruit-bearing potted plants

415255 Hot Burrito Red

180 | SEED

## **CUBY**

- · A real pot pepper with blocky fruits in the midi type
- · Rich, early fruit set
- Thick, fleshy fruit walls with a very sweet flavour
- Stable, compact plant structure, ideal for growing in pots and using on balconies and
- · Height at the time of sale: approx. 40 cm, in the garden: up to approx. 60 cm

**BUSH BEAN** 

FABACEAE

... 1000 ₫ ... Mio/ha 🐲 **\*** 10-11

#### **Green-podded varieties**

#### **DIVARA**

- Very high yielding, green bush bean, crisp and very aromatic
- · Straight, succulent, well-rounded, 17-19 cm long, 8-9 mm thick pods
- · Resistant to bean anthracnose, bean mosaic virus and halo blight
- TKW = approx. 290 g (white-seeded)

540000 Divara

DE-ÖKO-013 | SEED

#### **PRIMAVERA**

- · Very productive, crisp filet bush bean
- · Intense green, glossy, round pods, 13-14 cm long, 8-9 mm thick
- · The plants grow upright and have a stable habit, the pods hang freely
- Resistant to anthracnose, halo blight and bean mosaic virus
- TKW = approx. 220 g (white-seeded)

540200 Primavera

DE-ÖKO-013 | SEED

#### **SANSOUCY**

- · Particularly high-yielding variety in the popular 'chicken type'
- · Ideal for hand-harvesting; the pods hang freely over the foliage
- · Nice, dark green 14-cm-long straight pods
- TKG = approx. 400 g (white grain) ✗ HR BCMV/CI/Psp

**540260** Sansoucy

SEED

#### **Flat-podded varieties**

#### **POSEIDON**

- Early, very productive new breeding, flatpodded 'Roma' type, aromatic
- Long, very uniform, straight pods (13-15 cm), particularly wide (18-20 mm)
- Upright, stable bushes with concentrated pod production
- TKW = approx. 460 g (white-seeded) ★ HR Psp/BCMV/CI

540300 Poseidon

SEED

#### **Yellow-podded varieties**

#### **VOLETTA**

- · A very productive filet wax bean with fine, aromatic pods
- Straight, fully round, 7-8 mm thick and 16-17 cm long pods
- · Intense golden yellow, stays crisp long after cooking
- · Resistant to anthracnose, bean mosaic virus and halo blight
- TKW = approx. 190 g (white-seeded)

**540500** Voletta

DE-ÖKO-013 | SEED

#### PHASEOLUS VULGARIS VAR. VULGARIS

FRENCH BEAN

\*) 4-6 seeds each

#### **ISABEL**

- · Medium early, round-podded French bean, dark
- Stringless, approx. 14 cm long, diameter: 9-11 mm
- Suitable for early cultivation and as a subsequent crop for late plantings
- Resistant to bean mosaic virus 1

542300 Isabel SEED

#### **COBRA**

- · Medium early, black-seeded French bean
- High yield for outdoor and greenhouse cultivation
- Round, dark green, up to 20 cm long, diameter:
   7-9 mm, stringless
- · Resistant to bean mosaic virus 1

542450 Cobra

DE-ÖKO-013 | SEED

#### **MAXIGOLT**

- Fresh market variety with large, blunt pods and a very good flavour
- · Medium late, resistant to Fusarium oxysporum
- Height: 90-100 cm, TKW = approx. 300 g

543400 Maxigolt

SEED

#### **GREENTENSE**

- Faiza is a flat pod variety with almost stringless pods in a length of 22-27 cm.
- Attractive, intense green colour due to its high chlorophyll content, hence the additional name 'Greentense'.
- Uniform fruit set, uniform germination and high vield.
- · Strong and reliable even under stress conditions

542699 Greentense (Faiza)

#### **Sugar peas**

#### 🏸 ZUCCOLA

- Early sugar pea of the 'snap pea' type
- Sugary sweet, thick, fleshy pods with 8-9 peas, length: 8-9 cm
- · No endocarp, the pods can be eaten whole
- Resistant to powdery mildew and Fusarium oxysporum

Impressive variety of the 'Kaiserschote' type
Flat, dark green pods with a length of 10-11 cm,

Young pods for 'Kaiserschote', later as a sugary

Resistance to powdery mildew and Fusarium

Height: 70-75 cm, TKW = approx. 220 g

543650 Zuccola

**DELIKATA** 

sweet garden pea (8-10 peas)

Height: 75-85 cm, TKW = 280 g

up to 2 cm in width

oxysporum

543700 Delikata

SEED

SEED

#### **PISUM SATIVUM**

#### **Wrinkled peas**

#### **GRANDERA**

- Large-podded, very productive variety for gourmets
- 11-12 cm long, with 8-10 dark green, large peas, pointed pods
- The leaves are entwined (semi-leafless), for cultivating without a retaining wire
- · Resistant to Fusarium oxysporum
- Height: 70-80 cm, TKW = approx. 290 g

543350 Grandera SEE

#### **Hybrid varieties**

#### **LUCIA F1**

- · Fast growing, crunchy radish
- · For early greenhouse cultivation and year-round outdoor cultivation
- · The tubby bulb is resistant to pithiness, bright red and a very fine root
- · Robust foliage, resistant to downy mildew

544250 Lucia F1 SEED

#### **Open-pollinated varieties in** colours

#### **NELSON**

- · Semi-long, bright red with white tips
- · The cylindrical bulb is very blunt
- · Medium long, upright foliage, easy to bunch
- Cultivation in the spring with and without plastic covering and for the entire outdoor season

545150 Nelson SEED

#### **SANVITOS® SUMMER**

**SANVITOS® RED** 

· Day-neutral variety, ideal for year-round forcing

A rhubarb with an unusual, dark red colouration of the stalks on both the outside and the inside

The colour is heat-stable, ideal for cooking

· Mildly fresh with a pleasantly sour taste

delicious, red-coloured jam, compote or syrup

- · Does not require winter cooling for spring
- · Vigorous, delicately tender and stringless stalks of good quality

545270 Sanvitos® Summer

#### **Your order history** at pro.volmary.com

- **CELESTA F1**
- · Short, very firm and upright growing foliage · Round, with fine roots and have long, enduringly green cotyledons
- · For cold cultivation under glass or tunnels and outdoor cultivation
- Sturdy, tolerant against pithiness, high resistance to downy mildew
- The bulb and foliage keep their freshness, even during short-term storage

Corky Root Disease (Pyrenochaeta lycopersici)

# Spinacia oleracea:

Downy Mildew

(Peronospora farinosa f.sp. spinaciae)

# 1. Resistances

# 1.1 Terminology

There are different degrees of specification for pests or pathogens in their relationship to plants. The determination of this specification usually requires highly sophisticated analysis techniques. The answer to the question whether a plant can be affected by a pest or pathogen perhaps depends on the applied analysis procedure. It is important to emphasise that the specification of pests and pathogen can generally be subject to temporal and regional fluctuations. The specification also depends on ecological factors, and new harmful organisms or new strains of pathogenic agents that are able to withstand the resistances may develop.

# 1.2 Definitions

# Immunity:

Neither subject to attack by a certain pest nor infection by a certain pathogen.

The ability of a plant type to limit the growth and development of a certain pest or pathogen and/or the damage caused in comparison with susceptible plant types under comparable environmental conditions and pest and pathogen pressure. Under high pest and pathogen pressure, resistant varieties may exhibit some disease symptoms or damage.

# Two resistance degrees are defined:

# High/standard resistance (HR):

Plant types that highly limit the growth and development of a certain pest or pathogen under normal pest or pathogen pressure in comparison with susceptible plant types. These plant types, however, may exhibit some symptoms or damage under high pest and pathogen pressure.

# Moderate/intermediate resistance (IR):

Plant types that limit the growth and development of a certain pest or pathogen, but may exhibit more symptoms or damage in comparison with resistant varieties. Moderate/intermediate resistant varieties will still have less serious symptoms or damages that susceptible plant types when grown under comparable environmental conditions and/or pest and pathogen pressure.

# Susceptibility:

The susceptibility of a plant type is the inability of it to limit the growth and development of a certain pest or pathogen.

# 1.3 Variety Resistance Information

The resistances of our breedings are coded if they have not been noted elsewhere.

For varieties with resistances to more than one pathogen, resistance codes are separated by "/". If a resistance code refers to a particular disease strain, there is no protection against another strain of this pathogen. If the resistance indication does not refer to a certain strain of a pathogen but to uncertain, non-specified strains, it cannot be guaranteed that the respective variety could nevertheless be infected by the stated pathogen.

The resistances indicated in the catalogue are based on current knowledge at the time of printing. A breaking of resistances by the respective pest, however, cannot be excluded.

# 2. Disclaimer

We have produced our new catalogue with great care, however mistakes are not excluded. We cannot assume any liability for the completeness and correctness of the content.

No responsibility is taken for any form of information provided by Volmary. Descriptions, recommendations and illustrations are based as far as possible on practical experience and tests. # **Genovese basil**

# **BARISTO®**

- Genovese variety for year-round pot production with moderate resistance to mildew
- · Bright green colour, leaves are slightly smaller and flatter than Gemma and Geniale
- Perfect for producing fresh cuts in summer outdoors
- The best choice for organic producers

DE-ÖKO-013 | 84 | 180 | 553570 Baristo® (Gemini) 180 | SEED

# **SUPERBO**

- Particularly uniform cut basil in the 'Genovese Classico' type.
- Vigorous plant with medium compact growth
- · Large deep green leaves, intense flavour in the classic Genovese basil aroma
- · Due to fast growth and early market height, it is also interesting for the pot area

**553690** Superbo

# **GEMMA**

- Genovese variety with excellent taste and aroma
- Beautiful dark green, large spoon-shaped leaves, very compact
- Suitable for pot production in spring, summer and autumn.

553580 Gemma SEED

# **Red basil**

SEED

# **RED RUBIN**

- · Medium-compact red basil variety with flat leaves
- · Red Ruby grows well in pots and outdoors in summer

554100 Red Rubin SEED

# **GENIALE**

- · Especially for summer cultivation, compact plant with large spoon-shaped leaves
- · Thrives in warmer conditions, but can also be grown in pots in spring and autumn
- · Excellent aroma and flavour the perfect choice for making pesto

553590 Geniale SEED

# **Leaf basil**

# **Volmary brand series**

# 🏸 COPA® GREEN

- Green, upright basil, particularly robust.
- Medium-sized, slightly curled leaves, pleasantly strong aroma
- · Ideal for the production of sturdy pot basil

554253 Copa® Green

# **GENTILE**

intermediate resistance to downy mildew. Dark green Genoveser type leaves, very intense aroma, vigorous, medium compact plant.

553680 Gentile

# SEED

553690 Superbo

554100 Red Rubin

554260 Copa® Pinto

- Attractive leaf basil with medium-sized leaves
- With dark red leaves surrounded by a bright green leaf edge
- · Ideal for the production of stable pot basil

## General Terms and Conditions of Volmary GmbH

## 1. General

- 1.1 The following General Terms and Conditions apply to all sales and licensing procedures that take place within the context of our sales business, insofar as it is not stated otherwise in our offer or in the confirmation of
- 1.2 Our General Terms and Conditions are exclusively applicable. Any opposing conditions, or any conditions that diverge from the General Terms and Conditions of the ordering party, as well as any side agreements, are only binding if we have expressly agreed to their validity in writing. Our General Terms and Conditions shall also apply if we execute the delivery without reservation, in the knowledge that the Terms and Conditions of the ordering
- party are contrary to or divergent from our Terms and Conditions.

  1.3 The following General Terms and Conditions apply exclusively to compa nies in the sense of Section 14 of the BGB (German Civil Code).
- **1.4** Insofar as no divergent provision has been made, the Incoterms 2020 (EXW in accordance with INCOTERMS 2020), including any supplements valid at the time of conclusion of the contract, shall apply in terms of the interpretation of the customary forms of the contract

# 2. Offer – Closing of Contracts

- **2.1** Presentation of our products (seeds, bulbs, seedlings/young plants etc.) in advertising and other materials, including our web pages, do not represent legally binding offers in the sense of Section 145 of the BGB. They are free and non-binding. They are merely to be seen as encouragement to an ordering party to submit orders.
- 2.2 The binding nature of the order placed by the ordering party, with respect to our company, shall be two weeks from the date of receipt of the der, unless otherwise specified at the time of submission of the order 2.3 The order shall only be deemed to have been placed upon receipt of our written confirmation. Execution and delivery of the ordered goods or services by us without prior written confirmation shall also be deemed as cceptance of the order.
- 2.4 If our acceptance whether in writing or by execution of the order takes place after expiry of the binding period of two weeks (Clause 2.2), the contract shall nevertheless be deemed to have been concluded, insofar as e ordering party does not react immediately.
- 2.5 We reserve the right to adjust the varieties, quantities and delivery dates in our order confirmations, according to the actual delivery possibilities. Such changes shall be deemed to have been agreed upon if the ordering party does not object within eight calendar days of receipt of the orde confirmation. This shall only apply if the changes made to the order appear acceptable to the ordering party, under consideration of our interests.

## 3. Delivery

- 3.1 Unless otherwise agreed in the respective contract, the agreed delivery dates refer to the provision of the goods for handover or dispatch at our production plant in Senden (ex our premises Incoterms 2020).
- 3.2 Insofar as the delivery by our suppliers is not correct or on time, our obligation to deliver shall be suspended. This shall only apply in the event that we or our supplier are not responsible for the failure to meet the deadline.
- 3.3 Shortages of raw materials or energy, strikes, lockouts, traffic disrup tions, official decrees or other restrictions under public law, operational disruptions, all cases of force majeure and other circumstances, in particular trade restrictions as a result of the Corona pandemic, for which neither we nor our vicarious agents can be held responsible and which could not have been foreseen by us, shall release us from our obligation to deliver and, if applicable, from our licensing obligations, for as long as they persist, insofar as these circumstances affect our ability to deliver.
- 3.4 In the cases of Sections 3.2 and 3.3, we shall be entitled to withdraw from the contract without any obligation to pay damages if performance becomes impossible or unreasonable for us, or if an end to the impediment to the performance is not foreseeable. This shall only apply if we or our vicarious agent are not responsible for the impediment to the performance and if we have immediately informed the ordering party of the aforementio ned impediments to the performance. In the event of withdrawal from the contract, we are obliged to immediately reimburse any payments already made by the ordering party.

# 4. Duty to examine and to notify of defects

- 4.1 We are entitled to execute orders in the form of partial deliveries, unless otherwise agreed. The ordering party can only justifiably refuse acceptance of partial deliveries if they are objectively of no interest to them. The ordering party shall declare refusal of acceptance in writing; the lack of objective
- interest must be justified in writing together with the refusal.

  4.2The ordering party shall inspect and examine the goods immediately upon receipt, insofar as this is feasible in the ordinary course of business Depending on the scope of the delivery, the inspection/examination shall be carried out by taking a sufficient number of random samples, as required. If the ordering party requests a delivery to a third party, he must ensure that an immediate inspection and examination of the goods takes place. **4.3** The obligation of the ordering party to examine the goods and give
- notice of defects also extends to phytosanitary properties, i.e. in particular to viruses, pest infestations and diseases. If the ordering party suspects the existence of such phytosanitary issues, they must proceed as described in Section 10.7. Furthermore, in particular — especially with regard to the duty to minimise damage incumbent upon themselves — they shall separate the possibly infested or sub-standard goods from other goods, both those delivered by us and those already present at the ordering party's premises in order to prevent the spread of the infestation/infection.
- **4.4** In the event of obvious lack of quality, incorrect deliveries or shortfalls in terms of quantities, the ordering party must notify us immediately, at the latest within 3 calendar days. The notification must be made in writing. Transport staff are not authorised to accept complaints. If the ordering party fails to provide such notification, the goods shall be deemed to have been approved and the ordering party shall not be entitled to claim any rights arising from lack of quality, unless it was not recognisable during the inspection. In all other respects, Sections 377 et sec. of the HGB shall apply.
- **4.5** The ordering party shall notify us of any quality issue that are not immediately apparent (hidden issues) immediately upon discovery thereof
- **4.6** The ordering party is obliged to inspect the goods for transport damage if necessary by way of appropriate random samples upon receipt. If any transport damage is detected, the ordering party must immediately prepare a report in which the condition of the goods and the transport damage are recorded. The report must be handed to the transport staff for signature. The ordering party is obliged to report any transport damage to the transport company without delay, together with this report, and to inform us, along with a copy of the report. We shall not be held liable for transport damage subject to Section 11 - unless the damage was caused intentionally or due

gross negligence, either by us or by one of our vicarious agents 4.7 The acceptance of a notice of lacking quality on our part does not stitute an acknowledgement of the alleged condition.

## 5. Prices and Delivery Modalities

- **5.1** Unless otherwise agreed in the respective contract, all prices are ex our production facility in Senden. All costs relating to the goods, such as duties, insurance, taxes, storage costs, etc., shall be borne by the orderin party once the goods are made available at our production plant in Senden Shipment shall only take place at the request of the ordering party; ir this case, any additional freight/transport costs shall also be borne by the rdering party, and we shall transfer them accordingly.
- 5.2 The risk of accidental loss of the goods shall be transferred to the ing party upon handover to the transport company.
- 5.3 We shall take back sales packaging, within the scope of the statutory obligations. Unless otherwise agreed in the respective contract, such packaging materials must be returned to our production plant in Senden, and this shall be arranged by the ordering party at their own expense
- 5.4 Other transport packaging will be charged to the ordering party, unless otherwise agreed. If such materials are returned to us by the ordering party, undamaged, they will be credited accordingly.
- 5.5 Unless otherwise agreed in the respective contract, the loading of the goods at our production plant in Senden shall be arranged by the ordering party. This also applies in the event that the ordering party commissions the collection of the goods. Insofar as we provide the ordering party or their agents with support during loading, this shall be deemed to be a matter of courtesy on our part. The ordering party or their agents shall be solely responsible for proper loading, and in particular for compliance with the regulations relating to the securing of the load.
- 5.6 Our prices are based on the listed price at the time at which the order becomes binding, unless otherwise agreed. Insofar as no divergent agreement has been made in the respective contract, the prices are ex our production facility in Senden, excluding packaging and the statutory VAT.

- **6.0 Conditions of Payment 6.1** Invoiced amounts are due 30 days after the invoice date. Any discounts require an express prior written agreement. Such discounts must be agreed anew for each contract.
- 6.2 If there is a statutory change in VAT after conclusion of the contract, the value added tax shall be charged at the new rate applicable by law.
- 6.3 Insofar as partial deliveries are made, in accordance with Section 4.1, or in agreement with the ordering party, we shall be entitled to invoice each partial delivery individually. Invoicing shall be based on the agreed individual prices.
- 6.4 Payments shall only be submitted to one of our bank accounts, as stated on the invoice.
- 6.5 Unless otherwise agreed in individual cases, payments made by the ordering party shall always be set off against the oldest outstanding claim. The offsetting shall be carried out in accordance with the statutory regulation of Section 367 of the BGB, i.e. first on the costs, then on any interest and finally on the relevant principal claim. Any other provision of services by the debtor, after the conclusion of the contract, shall be deemed irrelevant.
- **6.6** Cheques will only be accepted as conditional payment. Payment shall only be deemed to have been made when and insofar as the amount has been irrevocably credited to our account. Any charges incurred by the bank in particular in the event of dishonoured cheques, shall be borne by the ordering party

- 7.1 The occurrence and consequences of a default shall be governed by the statutory provisions of Sections 286, 287 and 288 of the BGB
- **7.2** If the ordering party is in default of payment, we may withdraw from all contracts from the mutual business relationship or only provide further deliveries and services - also for other contracts from our mutual business relationship — dependent on advance payments or securities, at our discretion: we are also entitled to disclose all assignments (Section 9.1) to all customers of the ordering party, and to demand immediate payment to us. This shall not apply if the ordering party is only in arrears with minor amounts and there is no doubt as to their solvency; an arrears in payments shall be deemed to be minor if it amounts to a maximum of 5% of the total order volume from which it originates.
- 7.3 The ordering party may only offset any counterclaims if these are either ognised by us or have been legally established.

# 8. Retention of Title

- 8.1We retain the title to the goods delivered by us until all claims to which we are entitled from the underlying contract — including any costs, interest and damage caused by delay - have been met in full.
- **8.2** Our ownership also extends to the goods, plants and products produced by the ordering party through cultivation, processing, blending or mixing of the goods delivered by us, under retention of title. If any of our goods subject to retention of title are processed or inseparably mixed with goods still owned by third parties, we shall acquire co-ownership of the new goods or mixed stock. The extent of the co-ownership results from the ratio of the invoice value of the goods delivered by us under retention of title to the invoice value of the remaining goods.

# 9. Transfer of Claims

- 9.1 The ordering party shall be entitled to resell the goods delivered by us within the scope of their proper business transactions. In this case, they hereby assign the claim against their customer arising from the resale to us. The assignment is limited to the amount of our claim arising from the delivery of the resold goods, including any costs, interest and damages caused by delay, insofar as these have already been invoiced to the ordering party and registered. At our request, the ordering party shall disclose all resales of goods not yet paid for, name the recipients in full and provide us with all the required information for the direct enforcement of the claims assigned to us.
- 9.2 The ordering party is obliged to ensure, by means of suitable agree ments with its customers, within the scope of what is legally permissible. that the claims assigned to us are not forfeited by offsetting, but are only fulfilled by payment; to the required extent. They must refer to the ment for this purpose.
- 9.3 The ordering party is entitled to collect claims assigned to us from its customers. The ordering party is obliged to immediately forward any such payments received from its customers to us, up to the amount of the claims which we are entitled. If the ordering party collects claims assigned to us by their customers, without passing them on to us accordingly, we are entitled to disclose the assignment with regard to all claims — also against other customers - and to demand immediate payment to us. Furthermore we are entitled to revoke the authorisation to collect if the ordering party is in default with the fulfilment of their obligations towards us, in particular regarding payments, or if another circumstances become know

cast doubt on their creditworthiness. If the authorisation to collect lapses or is revoked by us, the ordering party must inform us immediately, at our request, of the debtors of the assigned claims and provide us with the information and documents required for collection.

- 9.4 If any third parties, particularly within the scope of compu execution or insolvency law measures, want to access the goods that are our property, the ordering party must inform them of our ownership and present the relevant documentation. At the same time, they must inform us mmediately. If we incur any costs in defending ourselves against alleged third-party claims to the goods that are our property, the ordering party shall reimburse these cost, insofar as they are not actually reimbursed by third parties; we shall assign any claims against third parties to the ordering
- 9.5 If the value of the securities granted to us by the ordering party exceeds the sum of our secured claims by more than 20%, we are obliged the securities exceeding 20% at the request of the ordering party. We shall elect the securities to be released at our reasonable discretion

## 10. Guarantee

- 10.1 Insofar as any goods delivered by us are found to be defective, the cause of which already existed at the time of the transfer of risk, in principle we shall be obliged to fulfil our guarantee obligations, insofar as we are notified of the defect within the limitation period (Section 10.4).
- 10.2 If the ordering party resells the goods delivered by us and its custome or the last customer in the supply chain is a consumer in the sense of Section 13 of the BGB, the ordering party may submit a claim against us in accordance with the statutory provisions of Sections 478 and 479 of the BGB, by way of so-called supplier recourse. If a justified case of supplier recourse exists, the restrictions on our quarantee obligations as set out in these General Terms and Conditions shall not apply.
- 10.3 The prerequisite for supplier recourse is that the goods delivered by us are sold to the consumer in an unchanged condition throughout the entire supply chain. Insofar as the goods have been cultivated or otherwise changed, or improperly handled in the meantime, supplier recourse shall not come into consideration. Supplier recourse presupposes that the shortcoming present at the time of handover to the consumer also constitutes a shortcoming in the relationship between us and the ordering party.
- 10.4 The period of limitation for guarantee claims is one year from the start of the statutory period of limitation. In deviation from this, the statutory periods of limitation shall apply insofar as the ordering party justifiably asserts a claim against us, within the context of the supplier recourse (Sections 10.2 and 10.3).
- 10.5 If the ordering party breaches their duties of inspection and notification of complaints, in accordance with Section 4, they may lose their rights under guarantee, pursuant to the provisions as set out in Section 4.
- **10.6** If the ordering party notifies us of any shortcomings, whether in accordance with Section 4 or 4.5, they must give us the opportunity to examine the goods ourselves and/or have them examined by third parties commissioned by us. If the ordering party commissions any third parties, particularly an expert, to inspect the goods or determine any shortcomings, we shall only be obliged to bear the costs incurred if an immediate inspection is objectively necessary and we do not carry out an inspection immediately.
- 10.7 If the ordering party asserts guarantee claims, we shall initially only be obliged to provide supplementary performance (rectification of the defect or delivery of a defect-free item). If we refuse subsequent fulfilment or if subsequent delivery fails or is unreasonable for the ordering party, the ordering party may reduce the purchase price or withdraw from the contract. Claims for damages on the part of the ordering party are excluded,
- subject to the provisions in Section 11.2.

  10.8 If the ordering party has the right to claim subsequent fulfilment by delivery of goods free of defects, we shall be entitled to adjust the varieties supplied to the actual delivery possibilities, insofar as the deviation is

# reasonable for the ordering party. 11. Claims for Damages

- **11.1** Insofar as the ordering party is entitled to claims for damages or reimbursement of expenses due to shortcomings that are not excluded by the above agreements or Section 11.2, they shall be subject to a limitation period of one year.
- 11.2 Claims for damages or reimbursement of expenses on the part of the ordering party, irrespective of the legal grounds, in particular due to breach of obligations arising from contractual obligations or unlawful acts, shall be excluded, subject to the exceptions stated below:
- a) In the event of a slightly negligent breach of cardinal obligations, our liability shall be limited to the damage typically occurring in transactions of this type
- b) Damages resulting from injury to life, body and health caused by a negligent breach of duty on our part, or a negligent or intentional breach of duty on the part of our legal representatives or our vicarious agents.
- c) Other damages, based on an intentional or grossly negligent breach of duty on our part or intentional or grossly negligent breaches of duty on the nart of our legal representatives or our vicarious agents.
- 11.3 Furthermore, claims for damages by the ordering party are not excluded with regard to
  a) damages resulting from injury to life, body or health caused by a negli-
- gent breach of duty on our part, or a negligent or intentional breach of  $\,$ duty on the part of our legal representatives or our vicarious agents, and
- b) other damages, based on an intentional or grossly negligent breach of duty on our part, or an intentional or grossly negligent breach of duty on the part of our legal representatives or our vicarious agents.

# . Advice, Plant Protection, Cultivation

- **12.1** Storage instructions, planting instructions, information on resistances, plant protection advice and other advice do not form part of purchase and delivery contracts. Unless they are expressly included in the contract, they merely represent non-binding information. They do not release the ordering party from their obligation to store and process the goods supplied by us in an appropriate and professional manner and to exercise the necessary care, especially when using plant protection agents, fertilizers and growth regulators. In particular, the possibility of a break-through of the stated resistances by the respective pest cannot be ruled out.
- 12.2 Insofar as we carry out plant protection consultations and provide information on resistances, the ordering party is obliged to first carry out a test of the recommended measures on a portion of the goods, if they decide to proceed, in accordance with the advice provided during the plant protection consultations. Only after successful testing may the general implementation of the measures take place. The test plants must be kept under identical conditions to the conditions under which the rest of the plants will be subjected after successful testing of the plant protection measures Subject to the restrictions in these contractual conditions, we shall only be

liable for plant protection advice provided by us if a proper test has been carried out in advance, and this can be proven by the ordering party. Section

- 12.2 shall apply accordingly.12.3 With regard to plant protection, the ordering party must observe the statutory provisions, in particular the Plant Protection Act. Even if we provide advice on plant protection, this does not exempt the ordering party from
- taking responsibility for the observation of the statutory provisions.

  12.4 The ordering party shall be responsible for the cultivation, in particular with regard to the selection and use of growth regulators and inhibitors fertilizers and plant protection products. The ordering party must ensure that the products used are compatible with one another. We wish to point out that damage may occur if, for example, growth regulators and pesticides that are incompatible are used. We accept no liability for any damage resulting from cultivation errors. Section 11.3 shall apply accordingly
- **12.5** Descriptions, illustrations, recommendations for cultivation and other information, in whatever form, either from us or from our vicarious agents, such as information on shelf life, sowing, planting and harvesting dates, or any information and notes on growing and cultivation conditions, are based on practical and experimental procedures, as accurately as possible. In all cases, we shall not be held for any damages resulting from the imple mentation or use of such descriptions, recommendations for cultivation or any other information provided. The ordering party bears the sole risk and responsibility as to whether the products or the recommended cultivation methods are suitable for the intended cultivation under local conditions. Product illustrations in catalogues, on the internet or in other publications show the variety type of the respective cultivar and not the cultivar as such. These illustrations do not represent a quarantee of the harvest results, neither explicitly nor implicitly.

# 13. Proprietary Rights, Licenses, Propagation

- 13.1 The use of intellectual property rights applied by us, including industrial property rights (plant variety protection and trademark protection), copyrights and image rights, is only permitted on the basis of a license agreement. Specifically, those goods that are subject to plant variety protection may only be propagated and multiplied on the basis of a license agreement. Any such licence agreement shall be concluded separately, and there shall be no entitlement thereto; the license fees shall be determined in the license agreement.
- 13.2 In particular, variety protection is based on the respective legal provisions, especially the German Variety Protection Act (Sortenschutzgesetz). The supply of protected varieties by us shall be exclusively for the purpose of cultivation and subsequent sale; the ordering party shall not be authorised to produce propagating material or to export propagating material to any country that does not guarantee plant variety protection, except in cases where this is agreed separately, in writing.
- 13.3 If mutations/sports occur at the ordering party's premises, they shall inform us immediately, grant us access for inspection and verification and, without being requested to do so, they shall provide us with samples and cuttings of the mutations.
- 13.4 Should the ordering party be entitled to alleged rights from the identification of the mutation, which they wish to sell or have protected, they shall be obliged to inform us thereof in advance. In all cases, we reserve the right to assert our own rights to mutations.
- 13.5 In the event of a sale of any rights to mutations to which they may be entitled, the ordering party shall grant us an irrevocable right of first refusal; in the event of planned protection of such rights, they shall agree forthwith. to undertake to offer us the rights of assignment at a reasonable price and, in the event of non-transferability, for exclusive licensing. **13.6** If no agreement can be reached regarding an appropriate price, in
- the sense of the above clause, an assessor appointed by the Chambo of Agriculture with jurisdiction over us, shall determine an appropriate, hinding price
- 13.7 The customer shall irrevocably permit us or third parties commiss by us to inspect his cultivation areas, after prior notification and scheduling. in rder to verify compliance with the plant variety protection agreement
- 13.8 Without our express written consent, the customer may not use any trademarks and symbols we use, to distinguish its products from those of any other legal entities or companies, and the ordering party is not permitted to use any trademarks and symbols that are not clearly distinguishable from ours. One exception to this is in the case of trading in our original packaging, bearing the trademarks and symbols affixed by us. Another exception applies in the event that the goods were delivered together with labels supplied by us. In this case, the trademarks used on the labels may only be used by attaching the labels supplied for the actual material ied, in order to maintain the corporate design associated with them.
- 13.9 Please note that the GGN (GLOBAL GAP number) of Volmary GmbH may only be used for products produced by Volmary GmbH. Please ensure that the GGN is only used in accordance with GLOBAL GAP guidelines. and that it is not abused. Adopt the best possible practices for traceability and labelling of products, e.g. labelling of GAP-certified products at your emises, to exclude mix-ups.

# 14. Place of Fulfilment

**14.1** The place of fulfilment for all services arising from contracts between ourselves and the ordering party shall be Münster in Westphalia (Germany).

# 15. Court of Jurisdiction

- 15.1 German law shall apply exclusively. The application of the UN Con ntion on Contracts for the International Sale of Goods and the applicability of any other conflicting provisions, which may lead to the applicability of other legal systems, including the so-called ROM I Regulation (EC 593/2008 of 17.06.2008), are expressly excluded.
- **15.2** For any disputes arising from contractual relationships between ourselves and the customer, the court of jurisdiction shall be Münster in Westphalia (Germany), unless a different exclusive court of jurisdiction is provided for by law.

# 16. Severability Clause

16.1 Should any of the clauses contained in these General Terms and Conditions, or any other clause contained in any contract concluded between ourselves and the customer, be or become invalid, either in their entirety or n part, the rest of the contract shall retain its validity The parties undertake to replace the invalid clause with an agreement that comes as close as possible to the original intention of the invalid clause, in economic terms.

Head Office Münster, Regional Court Münster, Trade Reg. No. 12502 CEOs: Hubertus Volmary, Frank Hüdepohl

# Disclaimer

We have compiled our new catalogue with the greatest of care. Nevertheless, misprints could still have occurred. We do not take any responsibility for printing errors.

# SIMPLY ORDER YOUNG PLANTS AND SEEDS ONLINE

As a Volmary customer, you have the exclusive option of using Volmary Online Portal

I...... 2022

# Benefits at a glance

- Order seeds and young plants around the clock
- View current availabilities at any time
- Current product and variety information
- Direct query of prices

Mass 2022

- Download and view catalogues
- Insight into your order history direct and easy re-ordering
- Mobile access, from any location, even directly from your greenhouse

Start now with the Volmary Online Portal at pro.volmary.com!
